What engine defects or defects to auxiliary machinery have come under your notice; what caused these defects, and how were they remedied? Give the names of the steamers for verification.

G. What boiler defects have come under your notice; what caused these defects, and how were they remedied? Give the names of the steamers for verification.

APPENDIX B.

ELEMENTRAY QUESTIONS.

What parts of an engine are generally made of wrought

What parts of an engine are generally made of cast iron?

For what parts of an engine is steel sometimes used?

What parts of an engine are generally made of brass or gun-metal?

Where is "white metal" sometimes used? On account of what property possessed by it, is it adopted? What objection is there to its more general use?

For what parts is Muntz metal sometimes used? Is it malleable? For what properties is it valued?

What difference is there in the composition of cast iron, of wrought iron, and of steel? 8.

How can cast iron, wrought iron, and steel be distinguished from each other?

9 What are the different properties of cast iron, of wrought iron, and of steel?

What is meant by the terms "breaking stress." "proof stress," "safe working stress?"

11.

What is the cohesive strength, or breaking stress, of goodordinary wrought iron?

Tempering steel: how is it done, and in what order do the colours come?

What is case-hardening?

14.

Which of the common metals or alloys can be forged, and which of them are brittle or "short?"

What is meant by "welding?" Which of the common metals can be welded?

The expansion of metals by heat; give examples of this in the engine and in the boiler.

In the construction of steel cylindrical marine boilers for what parts have the plates to be worked hot? What precautionary treatment of these plates is afterwards necessary?

18.

In what parts of cylindrical marine boilers is the strongest riveting employed? In which of the shell seams is it most necessary?

What is "caulking," and how are seams prepared for caulking?

Describe the different ways of fastening the ends of the main stays of a boiler. What are the merits of, or objections to, the different plans?

What stress per square inch is allowed on boiler stays?

Describe a riveted stay, and state where such stays are commonly used.

Where are thin plates to be looked for in a boiler as it wears, and how is the thinness to be detected?

How are boiler tubes fixed? What are "stay tubes," and how are they secured?

Where is it generally that boiler tubes leak? How is this defect repaired? What are the causes of this leaking?

What are the causes of cracked tube plates? Where are the cracks situated? How are they repaired?

What is the difference between a "dry uptake" and a "wet uptake"? Which requires most repair? Why? Where have you seen a wet uptake?

What is a superheater? What is its construction? What valves are on it? There is sometimes a gauge glass on it; what is that for? Are superheaters now in general use?

29.

What parts of a marine multitubular boiler are first injured by shortness of water?

Where are angle irons sometimes used in the construction of a boiler, and where are flanged plates used?

Priming; to what causes is it attributed? What means are applied to prevent it? What evils may be produced by it?

Funnel draught; what makes it? What checks it?

Flame sometimes seen at the top of the funnel; what causes this appearance? Is it beneficial or is it detrimental? Why so?

34

A blast pipe: what is its construction? Where is it placed? For what is it used?

35.

How many bottom blow-off cocks are generally fitted to each boiler, and why are they so fitted?

Blow-off cooks are sometimes fitted with a spanner guard? For what purpose is this? Describe how the guard is formed.

Water-gauge test cocks; where are they placed? At what heights? Must the cocks themselves be at those heights? What provision is made for cleaning these cocks, should they ever become choked? When there are no test cocks, how is the height of the water ascertained?

What is a dead-weight safety valve? Of what are the rubbing surfaces formed? How is a lock-up valve arranged to admit of lifting it or of turning it round, and to prevent adding to the weight?

About what area of safety valve is now required by the Board of Trade? What is the effect of suddenly opening a safety valve when steam is up? To about what extent do safety valves rise when blowing off without being eased by hand?

Spring-loaded safety valves: what advantages have they that are not possessed by dead-weight valves? What are the disadvantages, if any, as compared with dead-weight valves?

Of what pieces does a glass water gauge mounting consist? How does it act? Where is it placed? At what height? Is it liable to derangement? How is its working tested?

Glass water gauges have sometimes pipe connections top and bottom: what is the object of this arrangement? Should there be cocks at the extremities of these pipes? Why? or why not?

Describe a Bourdon steam gauge. Some gauges have an inverted syphon pipe below them; what is its use?

44.

Why is a small cock sometimes put on the pipe leading to a steam gauge? Where should it be placed, and what error might be made by omitting to use it?

45.

Do steam gauges indicate the total pressure of the steam, or only a portion of that pressure? What is the pressure measured from?

What is meant by the salting of the boiler? How is this prevented? What is the density of ordinary sea water? How is the density ascertained? What is the difference between the formation of scale and the salting of the boiler? What is the maximum density at which boilers should be worked at sea? In the event of condenser tubes leaking, what is the minimum density at which boilers should be worked? Give your reasons.

Scum cocks and pipes; how are they arranged? Where are they placed? At what height in the boiler? When are they used? When must they be shut? Neglect of these cocks lead to what dangers.

Scale; of what does it consist? Where is it most objectionable? How is it removed? How is its formation prevented? What evil effects are produced by it?

What is a Salinometer? Of what does it consist? How does it act? How is it graduated? Can it be used at any temperature indiscriminately?

What harm may be done through the check valve of one of a set of boilers being defective while under way? How would you work to avoid this harm?

How is the leak from a split tube stopped in a boiler at sea? Describe the operation. 52.

What is the use of dampers? Where are they fitted? When should they be used?

When there are no dampers fitted, what is used instead? What evil to the boiler is sometimes attributed to this? When the heating surfaces are clean, does this occur?

54. Describe the piston of a steam cylinder, with its different rings and their uses. There are generally round pieces let in flush on one side of a pistion; what are they? How are these pieces fixed?

55. Cylinder drain cocks; what is their use? There is sometimes a valve upon each cock; what purpose does it

56. Cylinder escape valves; of what do they consist? How protected? How regulated? When are they most needed? To what danger do they expose the engineer? What precaution is sometimes used to obviate this

What is a compound engine? What different kinds are there for serew steamers, in respect to the number and arrangement of their cranks and cylinders? What is a triple expansion engine?

What is link motion? What are some of its advantages? In modern engines for the screw propeller, when there is no link motion, what takes its place?

What is a separate expansion valve? Why is it not fitted all engines? What effect has an expansion valve upon to all engines? the starting and upon the reversing of the engine?

60. What arrangement is applied to reduce the friction of a slide valve? To what is the friction due?

Describe a loose occentric; how does it act? In what engines are the loose eccentrics still employed?

62. What is the travel of the eccentric rod? How is it measured on the eccentric? What is the travel on the slide valve when the link motion is in mid gear, and the engine still moving ?

What are "double beat valves"? What objections are there to their use?

64. What is a circulating pump? Is it always worked by the main engine? Give an example from your last steamer of the three water temperatures generally noted by careful

65. An air valve is sometimes fitted to a circulating reciprocating pump; what purpose does it serve?

66. What is the difference between a bucket air-pump, a piston air-pump, and a plunger air-pump?

67. Whether are double-acting air-pumps made with plungers, with pistons, or with bucket? Circulating-pumps: describe their construction and action.

What is an air-pump trunk? When is it necessary? How is it attached to the bucket? Centrifugal pumps: describe their construction and mode of working.

What class of air-pump requires both foot and delivery valves, and in what other class can either of these valves be in some cases dispensed with?

What are marine governors? What is their general construction? How do they act?

With a surface condenser and a single acting air-pump, what is the effect of a leaky foot valve, and what is the effect of a leaky bucket when there is also a foot valve?

72.

Air-pump pet cock or valve; where is it placed? How does it act? What is its object? Does it in every case reduce the effective capacity of the pump? Is it equally applicable to double-acting pumps?

At what temperature is the hot well worked? What is the effect of higher temperatures? What is the effect of lower temperatures? What limits the lowness of temperature? Has a very low temperature any disadvantages?

Bilge injection with common condensers; what are the fittings required? When is it used? What precautions are necessary in using it?

When surface condensers are used, what takes the place of the bilge injection? To what is the connection made? How is its valve formed? Why is this necessary?

What are the practical guides to the proper amount of opening of the inlet valve for the circulating pump?

Feed-pump pet-cook or valve: where is it placed? What is its use? How does it act? Is it always a necessary fitting?

What are some of the ways of fastening the ends of surface condenser tubes? About what size and about what thickness are condenser tubes? What parts of a surface condenser are made of brass?

What is a blow-through valve or cook? To what is it attached? There is sometimes a valve that when opened admits steam from the slide valve casing to the exhaust port: what is its use? To which cylinder is it fitted?

What are snifting valves? Why are they generally omitted now?

What connexions are generally fitted to the donkey pump and to what services can it be applied?

When the engines are stopped with steam up, what are to be shut and what are to be opened?

How is an engine heated up before starting? What precautionary examinations are made before starting?

What is an interceptor or catch-water? Where is it fixed, what is it construction, how does it act, and what attention do s it require?

Describe an air-pump bucket, with its valve or valves and its packing Of what are the valves generally made?

Of what materials are air-pump reds made? Why so?

What is the racing of the engine? When does it occur? What danger attaches to it? What is done to prevent it?

When under way, when the air-pump bucket is at the top of its stroke, at what height is the water in the condenser? 89.

"pitch" of a screw propeller? What is meant by the How is it measured?

Explain the difference between a "right hand" and a "left hand" propeller, and state how each of them revolves. 91.

What is the slip of a screw propeller? How is its amount expressed in figures?

Which of the valves about engines and boilers have to be worked by hand, which of them work self-actingly, and which are worked by the motion of the engine? 93.

Why is soda sometimes put into a boiler, and how is it put What is the kind of soda used? in when under way? 94.

Tallow cops for cylinders were sometimes made with two small cocks, or with only one small cock, or with one large hollow plug cock, or with one small cock and a valve: which of these is suitable for a high-pressure cylinder, and which for the cylinder of a condensing engine? Describe how the cup with only one small cock is used. What is now generally used instead of these? How has this change come about? 95.

Does a cylinder escape valve, self-acting, allow all the water to escape? If not, how much is left in the cylinder? 96.

What is a "Steam Lubricator" (sometimes called an Impermentor)? Explain its action? To what part of the engine is it connected? Whether will throwing cold water over it make it work faster or slower? Describe the one used in your last steamer?

97.

A common paddle wheel: of what is the centre made? Of what are the arms formed? What is the form of the bolts which attach the floats to the arms? How are the arms attached to the centres?

98.

Why have some paddle wheels one or more cast-iron floats in each wheel? With what engines are these most required? At what part of the circumference are they placed?

99.

Why are paddle wheel floats sometimes made of different breadths in the same wheel? With what description of engine is this most needed? Where are the broad floats placed and where are the parrow floats placed in the circumference of the wheel?

100.

What difference is there between a radial paddle wheel and one with feathering floats? What is the object of feathering floats? Are all the eccentric rods attached in the same way, and are they all of the same form?

101.

Whereabout is the centre of the eccentric of a paddle wheel with feathering floats placed? In that case are the feathering leavers on the striking face or on the back of the float? When the paddle shaft has an outer bearing, how is the eccentric made?

102.

Of what materials are the working surfaces of a paddle wheel with feathering floats? How are they lubricated?

103.

place is the disconnecting effected? How is it accomplished? In which of the cranks of a disconnecting engine are the crank pins fixed?

Whether is link motion valve gear or the loose eccentric generally used for disconnecting paddle engines? For what are disconnecting paddle engines frequently employed?

What are expansion joints? Where are they necessary? What attention do they require? Of what should the working surfaces be made?

What omission in the construction of expansion joints may lead to a serious accident when steam is first applied? How is this prevented in the construction of a steam trunnion pipe for an oscillating engine? 107.

Describe an oil cup with a syphon worsted? How is the worsted arranged? How is it cleaned? How far down the tube does it extend?

Describe a thrust bearing; which of the surfaces wears? Why are there sometimes a number of oil tubes for one thrust bearing?

109.

What parts of a screw shaft are generally covered with brass? Why is this necessary? About what thickness is the brass?

110.

What is the stern tube or screw shaft pipe? Why is a pipe of such a length required? Of what is it made? How is it fixed at each end?

111.

What is a lignum vitæ bearing? How is the wood fitted? Where is such a bearing generally used? 112.

How is a screw propeller fixed on the shaft? What means are used to prevent its getting loose at sea?

Where are sluice valves placed? What large sluice valve is there in almost all screw steamers? From what position should this valve be worked? Why so? What attention should it receive?

114.

With a condensing engine; what valves or cocks are on the skin of the ship in the engine-room and in the stokehole?

115.

What are the necessary fittings of a marine boiler? 116.

With a surface condensing engine, what cocks or valves are opened some time before the engine is started so as to be ready for starting whenever the order is given?

What is a steam jacket? What cocks are on it? what engines are jackets most generally used? Do they require to be felted?

118. What parts of an engine or its fittings should be felted or otherwise protected from radiation?

119. What are the small cylinders sometimes fitted on the slide valve casing cover of vertical engines? Explain their action. To what are they connected by a pipe? Why so? 120.

Name the principal pipes in connection with the engines and boilers of a steamer, and state to what the ends of these pipes are connected?

121. Through what cocks or valves, pipes and chambers does the water pass on its way from the sea inlet rose plate to the water space of the boiler, with a jet condenser?

122. Through what cocks or valves, pipe and chambers does the circulating water of a surface condenser pass?

123.

Through what cocks or valves, pipes and chambers does the steam pass from the boiler until it is in the from of water in the hot well?

124. Name the pieces of the engine through which the pressure of the steam is transmitted from the piston to the screw propeller? Name them in the order in which they

What is an air vessel? How does it act? At what parts of an engine or of its fittings are air vessels generally

126. What is the construction of a mudbox? Where should mudboxes be placed? Why are they necessary? How should the space be divided by the rose plate, and why?

What is a trunk engine? Why has it fallen into disuse? 128.

What is an oscillating engine? For what steamers are oscillating engines generally adopted? Why? How is the steam conveyed to and from the slide valve casing? 129.

Of what parts does the valve motion gear of an oscillating engine consist.

130.

For what have geared engines sometimes been used? Of what were the cogs of the large wheel made? 131

At what part of a screw steamer is the pressure that propels it applied to the hull?

132. At what part of a paddle propels it applied to the hull? steamer is the pressure that

About how much fuel per indicated horse-power per hour is required by modern steam engines, common, compound, and triple expansion?

What is the explanation of the economy of the surface

135.

What is the construction of a surface condenser? Of what are its tubes made? How are they fixed? How are they kept tight? What is done with a split tube?

136.

Where do surface condensers foul? How are they cleaned ?

137.

What non-conducting substances are employed to prevent radiation, and how are they applied?

138.

In the construction of smoke-box doors and of dry uptakes, what provision is made to lessen the amount of radiation?

139.

How can the formation of black smoke be prevented? Describe smoke-preventing apparatus?
140.

What is meant by "circulation" in a boiler, and what are the results of defective circulation?

141. What means are sometimes adopted to improve the circulation in a boiler?

By what arrangement is the circulation promoted in a "hay-stack" boiler?

143. Describe a ship's side air-pump discharge valve; in what respects does it sometimes differ from a common stop valve, and what attention does it require?

144.

What is the construction of a feed escape valve, to what is its discharge connected, and how is its loading regulated? Where should the escaping water flow?

When there is no feed escape valve, what is the arrangement of the feed valves or cocks?

146.

What is the measure of a horse-power? How is indicated horse-power ascertained?

Has "nominal horse-power" a fixed meaning? What is the use of this expression? What is generally taken as the measure of one horse-power nominal?

What is "back pressure" in a cylinder? About how much is it in each of the cylinders in your last steamer? Is excessive cushioning ever a trouble under certain conditions in modern engines? Say when and why and in which cylinder this occurs?

What is meant by "speed of piston?" About how much is the speed of piston in modern marine engines?

150. What is "atmospheric pressure?" What is its average amount? What instrument tells this amount?

151. What is "gross pressure" or "absolute pressure?" What pressure is it that is shown by the steam gauge?

152. What is meant by "cutting off" steam? How is it done? What part of the valve regulates the cut off?

153.
What is a piston slide valve? Describe its construction? Why are such frequently employed in place of the common slide valve? What is a great drawback to the use of these valves?

What fixes the time of closing the exhaust? After the exhaust is closed and before the port opens for steam, what becomes of the steam that is in the cylinder?

155. What is the "lead" of the valve? What is its object? About what amount is it?

What is the "cover" or "lap" of the valve? What is its object? About what proportion of the stroke of the valve is it made?

What is the "exhaust cover" of a side valve? What is its effect upon cushioning and upon exhaust?

What is "minus cover" or "minus lap" on the exhaust? What is its effect upon the exhaust and upon cushioning?

What is "cushioning" or "compression" in a steam cylinder? How is it affected by the amount of cover or of minus cover there may be upon the exhaust? How is it affected by the exhaust pressure?

160. What is "mean effective pressure?" How is its amount ascertained?

161.

What is a dial vacuum gauge? What is its construc-tion? For what is it used? About what amount should it show when the engine is working all right? What effect has the variations it indicates on the performance of the engine?

Does the vacuum gauge enable you to tell what pressure there is in the condenser, or must you have recourse also to the barometer to arrive at that? How would you ascertain the actual amount of back pressure there is in the condenser?

What is a barometer? What is its construction? Is a barometer sometimes used instead of a vacuum gauge? In what respect does the weather barometer differ from the vacuum gauge barometer?

164.

The common vacuum gauge and the common steam gauge: in which of them are the graduations marked from atmospheric pressure? Does either of them tell what is the true actual pressure in the boiler or in the condenser? 165.

Do steam and vacuum gauges vary with the variations of the weather barometer? When the weather barometer varies from 29 to 31, how much will the vacuum gauge vary and how will that affect the working of the engine? 166.

Vacuum is generally stated as so many inches. What is meant by, say, 20 inches vacuum? What does that tell us about the absolute pressure of the vapour then in the condenser?

From what depth will a pump draw water? Is there any limit? Why?

168.

What is vacuum? Can vacuum move a piston? When the temperature of the water in the condenser is 212°, what is the greatest degree of vacuum there can then be in the condenser?

169.

What is a thermometer? its construction? What is the roperty of matter that is the principle of its construction? What temperatures are regularly noted by careful engineers?

What is the temperature of (1) melting ice, (2) of boiling water, (3) of steam about 60 lbs. pressure by the steam gauge, (4) of steam about 100 lbs., and (5) of steam about 150 lbs., also (6) smoke in the funnel, and (7) of water in the hot well?

What is meant by the "conduction" of heat? Give examples of it in the boiler and in the engine. 172.

What is meant by the "convection" of heat? Give examples of it in the boiler and in the engine.

What is meant by "radiation" of heat? Give examples of it in the boiler and in the engine.

174.

Which is convection, which is radiation, and which is conduction in the following eases?:—(1) Heat from the glowing fuel to the furnace crown. (2) Heat passing from one side of the furnace crown plate to the other. (3) Heat passing from the steam pipes in the engine room. (4) The heat of evaporation.

What are the effective heating surfaces of a marine boiler ?

What parts of a marine engine are exposed to danger when the temperature is below freezing point?

177.

What precautions are necessary in cold climates when the temperature is below freezing point?

178.

State as many ways as you can by which a boiler might not get its full feed. A boiler, or one of a set of boilers, gets short of water although the feed valve is open its proper amount: to what causes might this be due?

179.

Of what are furnace bars generally made? About what thickness are they at the top? About what space is between them? Whether are the bars put further apart for Newcastle coal or for Welsh coal?

180.

Which burns faster—Newcastle coal or Welsh coal? hich is the flaming coal? Which makes most smoke? Which is the flaming coal? 181.

About how many tons of steam coal will be burnt per day in four furnaces, each 3' 0" wide, and of about the usual length? On what grounds do you say so? 182.

About how many tons of steam coal will be burnt per day with good triple expansion engines to drive an ordinary steamer of 40 feet beam 10 knots an hour by steam alone? On what grounds do you say so? What percentage more coal would be required to propel the same steamer one knot faster?

183, About how may tens of steam coal will be burnt per day, with a good triple expansion engine, surface condensers the low pressure cylinder 60 inches diameter, doing average work? On what grounds do you say so? 184.

A pair of inverted cylinder direct acting engines, there is a liner half an inch thick between the ahead eccentric rod and the eccentric strap; in overhauling the engine this piece is lost and forgetten; what difference will its omission make in the working of the engine, on the admission, on the cut off, and on the exhaust of the steam? Which will take place earlier and which later, distinguishing between the up stroke and the down stroke?

A pair of inverted cylinder direct acting engines driving a right-hand screw: on which of the crosshead guide bars is the pressure greatest in the up stroke, and on which in the down stroke?

A screw propeller is getting loose, it has a little play on the shaft, sideways on the key or feather: how will this show in the engine-room.

How would you prove whether the centre line of the trunnions of an oscillating cylinder be fair with the centre line of the main shaft?

How can the fairness of a line of screw shafting be tested without lifting the shafts? 189.

Where are steel forgings generally used in marine engines? 190.

What is the composition of nickel-steel? Where is it sometimes used in engines and boilers? 191.

How is forced draught generated on board ship and supplied to boiler-furnaces? Is the air heated before delivery? If so, how?

192. What is "induced" draught? Compare the merits of "forced" and of "induced" draughts?

198 How is the intensity of the draught measured? What is the usual pressure employed in the mercantile marine?

An explosive gas is liberated from bunker coal. Usually in well ventilated bunkers this gas escapes into the atmosphere without doing harm. In ill-ventilated bunkers the gas after mixing with a certain proportion of common air has been known to explode when a naked light has been brought in contact with it. What is the composition of the gas? Where is it found, in bunkers, 'tween decks, pockets. Where is it found, in bunkers, 'tween deck's, pockets,

and coal shoots? How may it be got rid of as soon as it evolves from the coal? How many cubic thet of air to one of the gas forms a violent explosive mixture?

A lighted lamp or confile has sometimes been lowered into an apparently empty paraffin tank and produced an explosion resulting in injury to the person holding the light. What did the tank probably contain, and what produced the explosion?

In vessels carrying coal-cargoes it has been observed that, generally speaking, the gas which escapes from the body of the coal is found more abundant y at the forward end of the hold than at the after end. Why should this be so?

In recently opened billast tanks, double-bottoms, and boilers, a light lowered into eith r has sometimes been extinguished. What would, in all probability, cause this?

In dcuble-bottom steamers where does the bilge water lie, and where are the roses of the bilge pipes fitted?

What is the advantage of a large rose over a small one?

Why, especially in vessels carrying eargnes liable to shift, should engine bilge suctions be fitted to both wings of the kilge?

In a heavily listed vessel, why is it difficult to keep steam?

If the engine bilge pumps get choked and water accumulates in the stokehold bilges, what effect does the water have upon the bilge boards and stokehold plates, when the ship is relling violently?

In a triple-expansion engine, what spare gear do you consider necessary in the case of a foreign-going ship? Also, what stores would you provide for a voyage to New Zealand?

What means are sometimes provided for temporarily coulding together the broken parts of, say, a tunnel-shaft? Describe the fitting?

Does the pressure on the thrust-collars vary with the horsepower, or with the speed of the ship, or how? 206.

If the holding-down bolts of a thrust-bearing should become slack, what effect would it have upon the working of the engines?

In an engine with three cranks, which of the three is subject to the greatest torsional stress (1) in going ahead, (2) in going astern?

Is it usual to make the crank shaft of a triple or quadruple expansion engine in one piece? And is the diameter of the shaft uniform from end to end? Give your reasons for the practice which obtains?

In a "built" crank shaft how are the webs rigidly secured to the pins and to the body of shaft?

There are various descriptions of donkey engines in use on board ship for pumping purposes. Some pumps are fitted with escape-valves, some are not. Why should this be?

Explain the function of an air-vessel fitted to a feed pump. Make rough hand sketches of (1) a satisfactory vessel, (2) an unsatisfactory vessel, where, say, the air-spring has been destroyed by carclessness, or has never been properly provided?

212.

Should cocks or escape-valves be fitted to air-vessels? Why, or why not?

213.

Where, by preference, should the escape valve of a feed pump be placed? Why? Why?

214.

Scum cooks are sometimes fitted to boiler-shells at a height convenient for Eugineers to manipulate when stanling in the stokeholl; the soum pipes in such cases are led upward, inside the boiler, to a little above the combustion chamber What danger may arise from this arrangement? tops. 215.

Cocks for testing the water level of boilers are sometimes fitted within react of the engineer who is standing in the s'okehold. These may have internal pipes leading upward and terminating at various levels. Under what circumstances may these become misleading?

216. Why should the pipe which leads from the bottom of the water-gauge column to the bottom of the boiler-front, or back, be covered with non-conducting material? Why also should it never have lengthy horizontal bends?

In your own experience, how frequently is this ripe re-

moved and cleared?

218.

Why, even with the best of water-gauges, is it advisable to occasionally use the drain cock?

Steam loops have sometimes been inadvertently made in the length of piping leading from the top of the water-gauge column to the top of the boiler. Roughly sketch such a loop and explain the danger arising from its existence?

220.

Describe your method of thoroughly testing the watergauge system to satisfy yourself that all the cocks and pipes are clear. Your answer can be written on a supplementary sheet of foolscap, which the examiner will hand you. Hand sketches, mere lines indicating pipes and circles indicating cooks, should be made. Identify the cooks and pipes by letters or numerals.

221.

Describe the construction of a water-tube boiler, mentioning the type selected?

222

In a water-tube boiler, how is an economiser fitted, and what is its duty?

223.

How is the water-gauge fitted? Are glass-gauges used?

224.

The pressure of the steam in water-tube boilers is sometimes greater than at the engines. Why is this, and what percentage above the engine pressure does it amount to? How is this difference of pressure maintained?

225.

Describe any automatic method of feeding water-tube boilers. Of what material are the tubes made?

226.

Describe the construction of any steam turbine you are acquainted with, which is used on board ship. How is the expansion of steam effected? How many propeller shafts are employed, and how many propellers?

227.

Is the same power available to go astern as to go ahead?

228.

Of what material are the propellers made?

229.

How many pounds of coal per indicated horse-power per hour are burnt with this type of engine? Name the type of boiler in use?

280.

Describe one of the several classes of refrigerating machinery in use on board of ship. Several types exist, one being more economical than the rest. Which is it?

231.

Describe the defects to which the selected type is subject How are the defects overcome?

232.

How frequently are the parts opened out for examination? Name the parts?

How frequently are the condensers of refrigerating plants opened for examination? How frequently are the coils tested by hydraulic pressure? On which side of the coil is corrosion most commonly found? Why should this be so?

234.

Where ammonia is used in refrigerating machinery, should the machinery by preference be isolated? Why? In reply, give what information you possess bearing on the matter naming the ships for purposes of identification.

235.

Explain how the ammonia is removed from the tubes in which it is supplied, and how passed into the refrigerating machine?

236.

What objection is there to the presence of water in the ammonia?

Describe the ammonia process of refrigeration.
238.

Of what material are the parts made which are in contact within the ammonia?

Are escape-valves fitted to the compressors of ammonia machines?

What is the maximum pressure found in the compressors of ammonia machines?

241.

What kind of pressure and other gauges are used in ammonia machines?

Explain how carbolic acid is removed from the tubes in which it is supplied, and how passed into the refrigerating machine?

What objection is there to the presence of water in the carbonic acid?

Describe the carbonic acid process of refrigeration?

Of what material are the parts made which are in contact with the carbonic soid?

246.

Are escape-valves fitted to the compressors of carbonic soid machines?

What is the maximum pressure found in the compressors of carbonic acid machines?

What kind of pressure and other gauges are used in earbonic acid machines?

In which type of machine is brine used? What is its density? Where does it circulate?

250.

Are fans for circulating air used in any of these processes?

If yes, why are they necessary?

251.

What means are in some cases employed for ascertaining the temperatures of refrigerating chambers without entering them?

What effect may the swabbing of the compressor-piston rods have upon the working of refrigerating machinery? 253.

What is a rectifier? Explain its use?

254.

Describe the cold-air process of refrigeration?

255.

Of what material are the air suction and delivery valves made? How are the valves kept on their seats? 256.

How many compressors are there to a cold-air machine? 257.

What is the duty of the expansion cylinder of a cold-air machine?

258.

What objection is there to the presence of moisture in the air passed through the cold-air machine?

259.

How is water to some extent removed from the air? What is the minimum temperature of the air?

260.

What is the maximum pressure found in the compressors of cold-air machines?

261.

What kind of pressure and other gauges are used in coldair machines?

262.

In refrigerating engines generally, to where is the exhaust steam led

263.

Cold-air chambers on board ship are insulated. How insulated, and why?

264.

Is it prudent to allow the wires of an electric circuit to pass through the insulation? Explain fully.

265.

Describe the construction of a feed water-heater and give the name of its manufacturer.

266.

Describe any well-known ash-ejector.

267.

Describe any well-known independent feed pumps.

264.

Are independent feed pumps automatic in their action? Explain the action.

269.

What advantage, if any, have independent feed pumps over feed pumps worked by the main engines?

To about what temperature is the feed water raised by passing through a feed-heater?

271.

What fittings are usually placed on a feed-heater? Why are they necessary?

272.

Describe the construction of a feed filter, enumerating its valves and cocks.

How can the filter be cleaned? and what ingredients are generally removed when cleaning takes place?

.74.

What is the intercepting material made of? How is/it fitted?

275.

Describe an evaporator, and mention the type?

276.

What fittings are necessary with evaporators?

How is the brine got rid of?

How may the coils be cleaned?

279.

What is a dynamo? Describe its various parts? For what is it used?

280.

In what respect does an electric motor differ from a dynamo? Where are electric motors sometimes used on board ship?

Describe a system of electric lighting employed on board

282.

How is the position of a fault in the circuit discovered?

283.

What is "sparking," and may it under some circumstances (naming them) be a danger?

What is "short-circuiting," and to what evil may it give

285.

What means are employed to prevent any part of the circuit becoming overheated? 286.

Describe the features of an arc lamp

287:

Describe the construction of a glow-lamp. 288.

What is the usual candle-power of the small glow-lamps in general use on board ship? 289.

Define the following terms: - Amperè, volt, ohm, watt. What is the measure of an electrical horse-power? 290.

Explain the uses of switches, brushes, commutators, cutouts field-magnets, armatures and resistance-coils.

291.

Why is it desirable to fit a dynamo in a cool place on board ship?

What undesirable effect will ultimately occur to an electric wire, whose sectional area is constantly diminishing, say, through corrosion?

What danger might arise from leading electric wire through coal bunkers?

294.

Is it hettor to lead electric wires, above or below sidescuttles? Why?

295.

What instruments are used on board ship to ascertain the strength of an electric current?

296.

Many ocean going steamers are fitted with hydraulic cranes &c. From where do they obtain their power? How is the hydraulic pressure kept at a relatively constant amount?

297.

Is any difficulty experienced in working hydraulic cranes in frosty weather? If so, why?

298.

Describe any steam steering gear you are acquainted with ?

299

When the helm is put hard over and the ship is going full speed ahead, what prevents the rudder returning to the amidship position?

In the case of a steamship under way, does the officer, or man manipulating the steam steering wheel, overcome any resistance exerted by the rudder?

301.

Explain clearly what is being done by a helmsman manipulating the wheel of a steam steering engine? 302.

Is there any difference between the amount of horseower required to put a helm hard over, in a given time, when the vessel is going full speed ahead, and when she is going full speed astern? This question refers to a case of a steamer fitted with one rudder only, and demands a more complete answer than merely "yes" or "no."

303.

What precautions should be taken before removing a manhole-door from a steam-boiler and why are these precautions necessary? In the absence of such precautions what casualties might occur?

304. Describe the chief features of the engine-governor fitted Describe its action. to a steamer you have served in. the maker's name and name of ship.

NOTE.—The following six questions refer to oil-motors, fitted to launches which

305.

Name the principal parts of an oil motor, and briefly state their functions. Give the name of the makers of the

What kind of oil is usually employed in oil motors? What is its flashpoint? What its specific gravity? What its calorific power? What precautions are taken in its storage to guard the public against casualty by fire or explosion?

307.

How many cylinders are generally used in oil motors? What kind of pistons are fitted? How frequently (measured in revolutions) is explosion per cylinder effected? How is explosion in the cylinder carried out?

308.

Describe how an oil motor is started. If starting prove difficult, where would you chiefly look for defects? How is piston speed modified? How is the speed of vessel varied? How is rever-ing effected?

Before examining an oil motor with a naked light, what steps should be taken for safety's sake?

310.

How frequently should an oil motor, working 12 hours a day, be opened up for examination, cleaned and its parts readjusted? What difficulty arises when the internal parts become foul with carbonized oil?

Note,—Questions isolated from their context should be read in the light of the context. Thus the "sparking" referred to in question 283 relates to the sparking in an electric lighting circuit on board ship. See question 281.

APPENDIX C.

Examination in Rough Working Drawing for a First CLASS ENGINEER'S CERTIFICATE OF COMPETENCY. (FORM Exn. 17).

The regulations in regard to the qualifications of a candidate for a first class engineer's certificate of competency specify that-

"He must be able to make rough working drawings of the different parts of the engines and boilers."

"He must be able to state the general proportions borne by the principal parts of the machinery to each other."

2. In accordance with these clauses, a candidate for a first class certificate is required to make a rough working drawing of the parts specified as on page 34. An engineer who has been some years in charge of marine engines and boilers ought to have familiarly in his mind the general construction of at least one set of engines and boilers, say that set he was last with. Fine drawing is not expected, and in the proportions of the parts a wide margin will be allowed; absurd dimensions will be failure in practical knowledge.

3. The drawing must, however, be practically a working drawing, giving a sufficient number of views to show the parts fully—sections, plans, or elevations, just as the candidate would require to be supplied to him if he had to

make the parts to the design of another person

4. A clear hand sketch showing the construction completely and fully dimensioned will be accepted if the candidate prefers this alternative.

- 5. A portion only of the parts specified may be accepted in place of the whole, if that portion is sufficient to show that the candidate has a good practical idea of the construction of the parts, and a fair notion of their general proportions or dimensions.
- 6. Candidates are hereby cautioned not to put on paper what they have not fully considered, and deliberately intend to be understood, as their statement of what they know about the construction of any part required.
- 7. The statements given in by a candidate may be in themselves, apparently, of little importance, but as sample material from which the state of the candidate's knowledge of engines and boilers is to be inferred, every detail which is glaringly inconsistent with a sound knowledge of the use of the part, or in which an essential consideration has evidently been overlooked, is an important element in the description which the candidate is giving of his own qualifications.
- 8. The candidate is advised not to begin more than he can clearly finish in the time allowed. An important object in this part of the examination is to ascertain whether the candidate can be trusted to mark all necessary dimensions upon a sketch or a drawing. The test of this is, practically, the making of the part from the sketch without having to supply additional dimensions, and without measuring the drawing. To prove this ability the candidate must fully dimension the parts shown in his sketch or drawing, notwithstanding that the parts may be correctly drawn to scale. A drawing is fully dimensioned when no part of it is left to the option of the party who is to work to the drawing.
- 9. To prevent misunderstanding, however, when the candidate has been led into showing more of the details than he has time fully to finish, he should name, in the statement on the other side, the particular parts which he has fully dimensioned.
- 10. All dimensions should have lines and darts, to indicate distinctly the points between which the dimensions are given.
- 11. Beware of writing cross dimensions upon centre lines, or upon longitudinal dimension lines. This is not an order but a recommendation.
- 12. The candidate is not expected to design anything; he has merely to sketch or draw a something with which he is expected to be already familiar. At the same time he should call attention to any defect in the design of the article or apparatus. Omission to do so will imply want of practical knowledge.
- 13. Pencil in nothing after half-past 3; all the dimensions, the figures, and the darts must be inked in; employ the remaining time in examining the drawing and in inking in any figures which may have been before overlocked, and in checking the dimensions.
- 14. Make sure that you will have sufficient room on the drawing sheet to show all the necessary views. You can

have another sheet of drawing paper if necessary. All the paper used must be forwarded with the drawing.

SUBJECT FOR EXAMINATION IN ROUGH WORKING DRAWING (FORM EXN. 17A).

APPENDIX D.

READING THE WATER-GAUGES.

Notwithstanding that the reading of the water-gauge is made a special feature in the examination of engineers, many boiler casualties result from the engineer of the watch

many boiler casualties result from the engineer of the watch either not understanding the construction of the water-gauge fittings or not satisfying himself by actual trial that the cocks, pipes, &c., are clear.

In one case, two furnace crowns came down in a steamer that was just starting on a voyage. The engineers were satisfied that there was plenty of water in the boiler because the water-gauge showed full glass, and they called the attention of a Board of Trade Surveyor to this fact as being conclusive evidence that the casualty could not have resulted from shortness of water. On examination of the fittings, however, it was found that the cock between the boiler and the steam pipe leading to the gauge was the fittings, however, it was found that the cock between the boiler and the steam pipe leading to the gauge was shut, having been carelessly left in that position on the previous day when the mountings were overhauled for survey. Directly the cock was opened the water disappeared from the gauge-glass, and the second engineer admitted that he had blown down the boiler in order to lower the water level, as the glass was full. lower the water level, as the glass was full.

^{*} Run the pen through the words that do not apply.

Many steamers have had their furnaces brought down at sea in a similar manner to the above through what the engineers of the watch have called "false water in the glass,' and which on examination has been found to result from the top communication being checked.

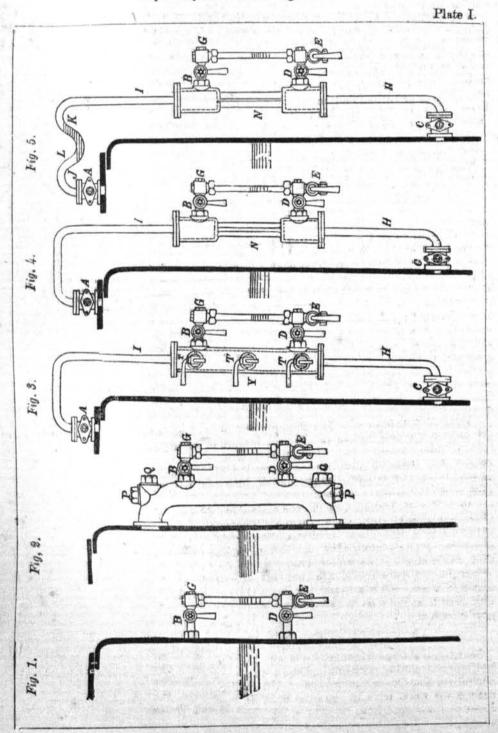

These casualties resulted from what, to say the least, was

bad management, not false water.

Unless a candinate under examination is able to prove that ne understands how to verify the indications of the water-gauge, he should not be passed in practical knowledge, and, as failure in practical knowledge involves the candidate going to sea for another three months before being eligible for re-examination, the examiner should explain to such candidate his error, after failing him, in order to prevent further casualities resulting from his want of knowledge on this subject.

The sketches, Figures 1, 2, 3, 4, and 5, Plate I, represent the usual methods of attaching water-gauge mountings to marine boilers. The important features in each gauge and the method of verifying its indications are dealt with

separately in the following remarks:-

REFERENCE TO FIGURE 1 ONLY.

In this case the water gauge cocks are attached direct to the boiler, and the accuracy of the gauge when the boiler is under steam can be tested as follows:—

First.—Let B remain open, then close cock D and open cock E, and if steam issues it proves that cock B and the passage through the top fitting and gauge glass are cear. If no steam or water issues, either cock B or the passage through the top fitting and gauge glass is choked and the gauge cannot act properly until the obstruction is removed.

Second.—Close cock B and open D and E, and if water issues, cock D is clear. If no water or steam issues, either cock D or the passage from the boiler through the lower fitting is choked and must be cleared before the gauge can act properly.

REFERRING TO FIGURE 2 ONLY.

In this case the gauge cooks are attached to a best pipe of comparatively large dismeter (at least 3 inches in the bere), the upper end of which communicates with the steam space, and the lower end with the water space of the boiler. Owing to the bore of the pipe being large it is not liable to become choked or stopped under the ordinary conditions of working. The water-gauge is, therefore, in practically the same condition as if it were attached direct to the boiler, as in Figure 1. This gauge, when at work, is tested in precisely the same manner as the one shown in figure 1.

Screw plugs are inserted at PP and QQ, by the removal of which the apertures in the pipe can be cleared, if necessary, by the insertion of a wire or rod when steam is down.

REFEREING TO FIGURE 3 ONLY.

In this gauge there is an open communication from A to C through the column Y, and in order to "blow through the glass" it is only necessary to shut cocks D and B alternately, keeping E open. But to "blow through the undergauge," including the pipes H and I, it is necessary, after blowing through the glass as described above, to shut A and C alternately, at the same time keeping B, D and E open for such time as will ensure the complete discharge of the contents of the gauge and its connections. When B, D and C are clear and A choked, the steam lodging in the glass and in the pipe I leading from column Y to A becomes condensed, and the water flowing through C to take its place rises in column Y and in the glass to a level above that of the water in the boiler. In other words, the gauge shows a false level. If now E be opened and water is blown out, then on E being again closed the water in the gauge will rise higher than before and be still further misleading. On the other hand, when B, D and A are clear and C choked, the water, if any, in the glass is trapped and no longer rises and falls with the water in the boiler or with the motion of the vessel; it, however, slowly rises in the glass owing to the condensation of the steam in the upper part of the gauge until such time as E is opened when the whole of the water in the glass in blown out, and on E being closed the glass does not show any water notwithstanding that the water in the boiler may be at the proper level. When the test cocks T T T are attached to column Y, as shown in Figure 3, they cease to be reliable when either cock A or C or the pipe in connection therewith is choked, or nearly choked.

REFERRING TO FIGURE 4 ONLY.

Sometimes the water-gauge fittings, are arranged as shown in Figures 4 and 5, with no passage up the column, the central portion (N) of the column being simply a pillar or connecting piece of any convenient section between the upper and lower portions to which the cocks B and D are attached.

By this arrangement double communications are obviated and there is no need for what is known as "double shut off" in testing the accuracy of the gauge. When, however, the gauges are constructed in this manner the cocks B and D are unreliable as test cocks in the event of there being no glass in the gauge. This teature should be carefully noted. Moreover, when in working condition the reduction of pressure in the glass which arises when E is opened causes the water in pipe H to rise above its normal level. This objectionable feature should also be noted.

REFERRING TO FIGURE 5 ONLY.

Sometimes there is a bend, L, in the steam pipe I leading from cock A to cock B. This has occasionally escaped observation when new boilers have been fitted on board ship. In most cases this bend arises from the pipe being led in an abnormal direction to escape other pipes, beams or fittings near the smoke box. With such a bend the condensed steam collects in the pipe and falls to the bottom of the bend, and in time it completely fills the pipe from J to K. The steam from K down to the level of the water in the glass is thereby trapped and, as condensation proceeds, leads to a reduction of pressure in the pipe below that of the boiler and an equivalent rise of the water in the bend and also in the gauge-glass. When the vessel is quies ent the water in the gauge-glass increases in height until cock E is opened or until the pressure in the boiler is so much in excess of that in the lower part of pipe I as to cause the water in the bend to be blown into the gauge-glass. In either case instantaneous change of water level ensues.

In the ordinary course of working the phenomenon described above is more or less modified by the presence of air in the upper part of the gauge and by the rise and fall of the water in the boiler and gauge-glass arising from the rolling or pitching motions of the vessel.

OTHER SPECIAL POINTS TO BE NOTED.

When the cocks A and C are omitted, as in Figure 2, it is owing to the bore of the stand pipe being sufficiently large to enable it to be regarded as part of the boiler. Such pipes require, however, to be examined and cleared at intervals by passing a rod through the holes provided for the purpose at PP and QQ.

Cocks at A and C are not necessary for the testing of gauges arranged as shown in Figures 4 and 5. Examiners ought, however, to make sure that candidates are aware of the impossibility of testing the reliability of the indications of water-gauges arranged as in Figure 3 when the cocks A and C are absent and of the effect which the choking of cock A or C, or pipe H or I has on the indications of the test cocks T T T attached to column Y.

Probably more than half the steamers afloat are fitted with water-gauges as shown in Figures 3 and 4, and it is therefore specially important that engineer candidates should thoroughly understand their construction, the principle on which they act, and the steps which must be taken to keep them in an efficient condition.

When fitting a gauge-glass into its place it is specially important that it should not be placed so high as to prevent a clearing rod being inserted at G, figures 1, 2, 3, 4 and 5. This defect, especially if it occurs in a water-gauge attached to a boiler subject to priming, permits a rapid accumulation of seum around the top of the glass and results in the choking of the orifice leading from cock B to the gauge-glass in each of the figures.

When a gauge-glass is too short or is placed either too high or too low in the fittings, it is also liable to become choked by the packing material being forced over its ends by the glands whilst being screwed up.

The use of unsuitable or insecure internal pipes in connection with either the ordinary gauge-glass cocks of the description shown in Figure 1, or with test cocks which are joined to the boiler itself, should also be carefully guarded

against.

Boiler casualties have resulted from the cocks B and D having the parts wrongly placed as shown in Figure 6, Plate II. In one case of that kind which forms the subject of Report No. 208 under the Boiler Explosions Acts, the engineer in testing the water-gauge omitted to see that the passages in the cocks B and D were clear when the handles were in their proper working position. This defect could easily have been discovered if proper attention had been easily have been discovered in the cocks. paid to the condition of the cocks. A defect of this nature may be due to faulty construction originally, or to the handle of the cock having been overstrained, and the neck twisted. Whether the passages in the plugs are fair and clear can, however, be verified in a few minutes. As an illustration, the water cock D, Figure 6, Plate II, can be verified by blowing through E with B shut and then moving the handle of D to one side until it is just closed, and then to the other side until it is again just closed; the proper working position of the handle is about equally distant from each of the above positions. The other cocks can be verified in the same manner.

Another serious casualty occurred through the handle of the cock A, Figure 3 having been twisted from its original position relatively to the orifice of the cock, resulting in the

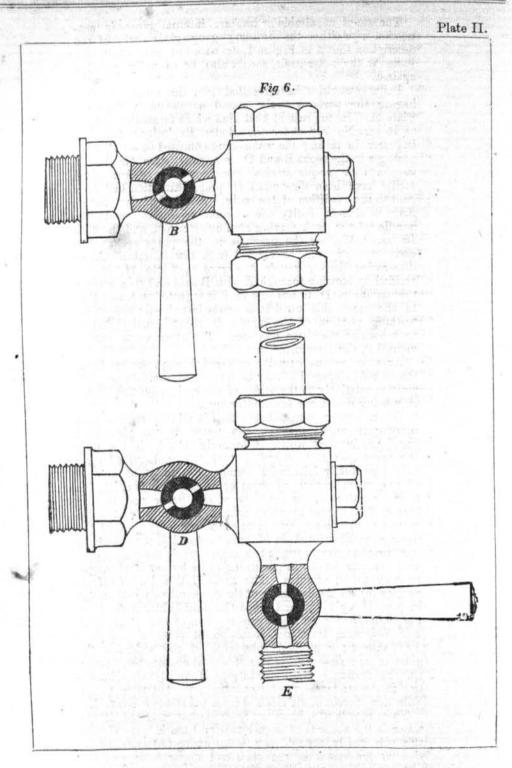

cock being shut when apparently open.

When a water-gauge, that is clear in all its parts, has been thoroughly blown through, the water in the glass rises above the level at which it formerly stood, immediately the drain cook E is closed, but if left undisturbed for a time it gradually falls to its former position. The amount of rise which occurs on these occasions depends chiefly on the temperature of the centents of the boiler and on the length of the pipes by which column Y is connected top and bottom to the boiler, but in cases where the gauge is of the description illustrated in Figures 3, 4 and 5, it amounts in high pressure boilers to shout 4 inches, while the time occuhigh pressure boilers to about 4 inches, while the time occupied by the water in returning to its former level ranges from 30 to 40 minutes. The cause of this rise is twofold, namely (a) the displacement of the comparatively cold water in pipe H by hotter and proportionately lighter water from the boiler, and (b) a slight condensation of the steam and a correspondig fractional reduction of pressure in pipe I.

The cause of the gradual subsidence of the water in the glass to its former level is also of a dual character, namely (a) the cooling of the water in pipe H, and (b) the diminution in the condensation of steam in pipe I owing to the collection therein of air released from the steam condensed.

These results will, however, be somewhat modified if the water in the boiler is of higher density than in pipe H, and this will nearly always be the case owing to the condensation of the steam in the glass and upper fittings of the water-gauge, causing the water in the lower part to be fresher than that in the boiler.

The examiner should impress upon candidates the necessity for periodically blowing through the water-gauge on each boiler (no matter what the form may be) in a systematic and thorough manner, and, in cases where a boiler is fitted with two water-gauges, of keeping both in constant use; finally, he should further impress upon them the necessity for keeping the water-gauges well lighted, clean, and in all respects efficient.

APPENDIX E.

Examination of Masters and Mates in Steam.

These examinations are provided for the purpose of giving Masters and Mates who are possessed of Certificates of Competency an opportunity of undergoing a voluntary examination as to their practical knowledge of the use and working of the steam engine. The examiners are appointed by Government

by Government.

The examination is open to any person who holds a Certificate of any grade in the Foreign or Home trade or as Master of his own pleasure yacht. Candidates should fill up the form of application, Form Exn. 2, at the Port Office, pay the fee of Rs. 15, and deposit their Certificates with the Port Officer, who will inform the applicant when and where to attend to be examined. If the candidate fails to pass his Certificate will be at once returned to him.

pass his Certificate will be at once returned to him.

If he passes, the report (Exn. 15) will be sent to the Port Officer, and the Certificate, together with the Form Exn. 2, will be sent to the Government; the words "Certified to have passed in steam," with the date and place of examination will the heart and on the Certificate and its counter.

of the Mercantile Marine Office of the port named in the Form Exn. 2, and be delivered to the candidate in the usual manner.

If a candidate fails he may not present himself for reexamination until the expiration of three months from the date of failure.

The examination is for the most part vvà voce, and extends to a general knowledge of the practical use and working of the steam engine, and of the various valves, fittings, and pieces of machinery connected with it; and of the way in which electric lighting is carried out on board ship. Theoretical questions on calculations of horse-power or areas of cylinders and valves or any of the more difficult questions relating to steam engines and boilers will not be asked.

Examiners are to satisfy themselves that the candidates know the names and understand the uses of the various parts of engines and boilers, and their connecting pipes, valves, cocks, &c. Practical knowledge, as distinguished from theories and abstruse calculations, is to be the test of the candidate's fitness to have his Certificate endorsed.

The examiner should arrange to conduct part of the examination in the engine room of a steamship, unless from circumstances he finds it impossible to do so; but in the event of the candidate passing, the examiner should state in writing what circumstances prevented a visit to an engine room. If an opportunity offer, the candidate should be permitted, under the guidance of the examiner, to start and stop the engine of some vessel which may have her steam up.

up.

The examiner, in sending in his report of the examination, should state where the examination has been held.

Candidates will be required to give written answers to sixteen out of twenty questions taken from the Elementary Questions printed in Appendix B. These questions will be altered from time to time without notice. The twenty questions are not to be difficult, theoritical, or book question, but are to be such as any man of ordinary capacity, who has any practical knowledge of the use and working of the steam engine, ought to answer.

If a candidate refers to any book or paper or memoran-

If a candidate refers to any book or paper or memorandum, or obtains information from another candidate during the examination, he will be treated as having failed, will forfeit his fee, and will not be allowed to be re-examined for a period of three months.

The examiners will report in the case of failure, the nature of the question or questions that decided the failure, or the point in the management of the engine in which the candidate was deficient.

There is nothing in the regulations requiring that applicants for the voluntary examination shall have served on board steamships; all that is required is that they shall have a practical knowledge of the use and working of the steam-engine. Examiners will not fail to appreciate the fact that practical knowledge is best gained in the engine room; and the examination of an officer who does not produce official evidence of service in steamships, and of experience of engines, must necessarily be more searching than in the case of one who produces evidence of such service and experience.

Examiners will require all candidates to fill up a Form Exn. 15 (b), and they will forward it to the Port Officer with the report of the examination.

Masters and Mates may cancel questions A, B, and C, but they should fill up the form for questions D, E, F, and U,

as evidence of their practical knowledge.

A candidate for this examination is required to have a thorough grasp of the construction of the steam-engine and boiler, to enable him, in the first place, to understand the nature and importace of any defect which may be reported to him by the Chief Engineer, and so that he may work in harmony with him in affording time and facilities for disconnexions, inspections, adjustments, and repairs.

To have a looking-on knowledge of what the principal repairs are about engines and boilers and pipes, and how these repairs are accomplished.

To be able to form an independent opinion as to a

To be able to form an independent opinion as to a breakdown, and the consequent propriety or impropriety of proceeding under steam with temporarily repaired or defec-

tive machinery.

To understand how to estimate approximately the reduction of fuel required for reduced speed, and consequently to sanction such reduction of speed as may seem to him to be warranted by the report of the Chief Engineer, and to satisfy himself before leaving port that there is sufficient coal for the voyage.

To have an intelligent grasp of the general run of pipes and connexions in the engine-room, the marking of cocks, the opening and closing of cocks and valves, how mistakes of importance may be made in the confusion of an accident

and how best to guard against such mistakes.

To be capable of being left in charge of the feeding of a set of boilers, to understand the working of the water-gauge, and to be able to guard against being misled by false indications of the gauge glass.

tions of the gauge glass.

To understand about blowing down and surfacing, the reasons for doing so, and the danger which may result from

the neglect of these under certain circumstances.

A master or mate presenting himself for examination in steam must be understood to have made up for his want of practical experience by reading up about the steam-engine. He ought, therefore, to show that he has given his mind to intelligently understanding the rationale of the action of the steam-engine. Under this head he should, therefore, be able to state appoximately the quantity of heat required in the formation of steam, the remarkable relation of "latent" heat to "sensible" heat, how much steam can be raised by the combustion of one pound of coal, what horse-power measure is, what indicated horse-power is, what is the action of the slide-valve, the course of the steam through the engine, and the advantage of working expansively, and how the expansive action is shown by the indicator diagram. To know the uses of the various parts of the engines and dynamos used for electric lighting, and how they and the cables are fitted in the hull; how wires are jointed, insulated, and cased; why it is desirable that they should be led along places which are dry and accessible; what is "sparking, and what are the causes which produce it; what is its danger in coal bunkers and petroleum-carrying steamers; what are the uses of switches and cut-outs, and why is it so important

to prevent short-circuiting taking place.

The candidate has to answer in writing 16 out of 20 questions selected from the Elementary Questions (800 Ap-

pendix B).

Selections for this examination are given on the alphabetic sheet for "Steam." Generally, these answers are given by candidates as learned by rote from a book; the candidate should therefore be asked such viva voce questions as will necessitate his giving his answers in different words, so as to discover whether he has the root of the matter in him.

The principal part of the vira roce is the examination on board a steamer, preferably one with which he is unacquanted. He is told to look about and try to find out the run of the machinery without the assistance of anyone: the examiner to be in the engine-rocm to see that this independent examination is properly carried out. When the candidate reports that he thinks he knows the whole arrangement of the machinery, the Examiner will then question him on the uses of the parts, get him to point out the different cylinders, pumps, valves, condenser, &c.; also the dynamo, its field-magnets, armature, commutators, brushes, cables, &c. He must show that he understands the run of the pipes in the bilges, not necessarily that he has gone over every one of them, but he ought to be directed to trace, at least, one important range of pipes and to thoroughly satisfy the examiner that he could be safely trusted to manipulate the

valves or cocks in connexion therewith. It will not often be practicable for the candidate to be asked to actually work engines under steam, but he must satisfy the examiner that he knows how to do so, and that he is aware what precautions have to be taken in regard to water in the cylinder, &c. It is most important that a candidate should show that, in the event of an accident depriving him of the assistance of engineers, he knows what to do to safely take his vessel to an anchorage, or to stop the engines and proceed under sail

The examination of a mate in steam is the same as that of a master. The knowledge required has no reference to the mate's position. A mate may be examined, but such examination implies that the mate will one day be a master, when the possession of the knowledge will be an advantage to him in the discharge of his duties as master.

APPENDIX F.

FORMS USED IN THE EXAMINATIONS OF ENGINEERS.

Exn. 1a. Regulations.
Exn. 3. Application to be examined.
Exn. 10d. Face sheet, Second Class.
Leaves 201, &c., Second Class, 10 A. M. to noon.
Leaves 311, &c., Second Class, 12 to 2.
Leaves 411, &c., Second Class, 2 to 4.
Exn. 11d. Face sheet, First Class.
Leaves 261, &c. First Class.

Exn 11d. Face sheet, First Class.
Leaves 261, &c., First Class, 10 to 12.
Leaves 361, &c., First Class, 12 to 2.
Leaves 461, &c., First Class, 2 to 4.
Second Class, data sheet for

Exn. 15d. Second Class, data sheet for a set of papers.

Exn. 15e. First Class, data sheet for a set of papers. A corner is cut off the First Class papers to prevent mixing

the papers accidentally.

15b. The form for elementary questions used on the Exn. 15b. second day of the examination by candidates for second class, and on either the second or the third day by candidates for first class. Candidates who have time between working the arithmetical papers on the first day are allowed to go on with the elementary questions on 15b. The questions are contained in Exn. 1a.

Leaflets. Alphabetical lines of numbers of the elementary questions for first class, second class, and masters and

mates in Steam.

Exn 17-a, b, c, &c. Subjects for examination in rough working drawing. The candidates bring their own instruments; the office supplies drawing boards, paper and squares.

Exn. 16. Examiner's authority. Exn. 15. Examiner's Report.

Exn. 37. For reporting the names of Candidates under examination.

> A. PEDLER, Director of Public Instruction, Bengal.

CALCUTTA UNIVERSITY NOTICE.

In January 1902, Babu Jogendra Chandra Ghosh, Member of the Senate, offered to place at the disposal of the Calcutta University Government Securities of the nominal value of Rs. 10,000 of the Loan of 1865 for the encouragement of the study of Comparative Indian Law by persons belonging to what is called the Adhyapak class in Bengal, and for the purpose of establishing out of the annual income of the fund of a prize to be awarded to the writer of the best essay on the subject under the following conditions:

writer of the best essay on the subject under the following conditions:

(i) By Comparative Indian Law shall be meant the Hindu Smriti Sastra, called Vyabaharkhands and a comparison of the standard Sanskrit authorities on the subject with British Indian Law as contained in Parliamentary Statutes. Regulations and Acts of the Indian Legislative Councils, and the Law so laid down in Leading Cases. The study, which it shall be the object of the Frize to encourage, is the History of the Hindu Smriti Sastra as it existed at and from the time when India came under British History of the Hindu Smriti Sastra as it existed at and from the time when India came under British rule and how and to what extent it has been a tered under British influence, regard being had not only to the existing Statutes, Regulations and Acts, but also to those which, having been in operation for a time, have now been repealed or become obsolete, and regard being also had not only to the existing Cases but to cases which were considered Leading at on time, but have now been overruled, and how and to what extent such alteration has affected Hindu Society.

(ii) The cassay, at the discretion of a Committee consisting of the Vice-Chancellor for the time being of the University, the President of the Faculty of Law and the Principal of the Government Sanskrit College in Calcutta, may deal with the whole of the Indian Comparative Law as before defined or with part or parts thereof; but in no case shall an essay be entitled to competition which in any way attacks part or parts thereof; but in no case shall an essay be entitled to competition which in any way attacks part or parts thereof; but in no case shall an essay be entitled to competition which in any way attacks of the British Indian Comparative Law as before defined or with part or parts thereof.

(ii) By Adnyapak shall be meant scholars of the Smriti Sastra, students of Smriti in the Government Sanskrit College in Calcutta, and in the tols or indigenous Brahmanical schools which send in cand

The offer was thankfully accepted by the Syndicate at their meeting held on the 8th

February, 1902. The first prize will be awarded in January 1906. The value of the prize will be Rs 1,009. The subject for the year 1906 will be—

Discuss the theory of adoption as expounded by the Hindu Smriti Sastras, and compare the Law regarding the adoption of an only son therein contained with the decision of the Privy Council and of the different High Courts and other Courts in British India on that subject.

Candidates are required to send their essays to the Registrar, Calcutta University, on or before the 1st day of July, 1905.

CALCUTTA,

V. H. JACKSON,

The 11th April 1905.

Asst. Director of Public Instruction, Benyal.

CIVIL ENGINEERING COLLEGE, SIBPUR. ENGINEER DEPARTMENT.

Session 1905-1906.

CANDIDATES for admission to the Engineer Department should apply to the Principal in the prescribed form on or before the 15th May 1905. Each application must be accompanied by a registration fee of Re. 1.

The session begins on Monday, the 5th June 1905. Candidates must furnish proof that they have passed one of the following tests:—

(1) The B.A. Examination in the B course in Physics and Chemistry of the Calcutta University. The candidate's age must be under 23 years.

(2) The F.A. Examination of the Calcutta and Madras Universities.

(3) The Intermediate Examination of Allahabad and Punjab Universities.
 (4) The Intermediate Examination for the degree of B.A. of Bombay University.

(5) The High School Examination for Europeans and Eurasians.

The candidate's age in (2), (3), (4) and (5) must be under 21 years.

In selecting candidates who have passed the F.A. (all other things being equal), preference will be given to those who have passed in Sanitary Science in addition to the ordinary subjects of the F.A. Examination.

The maximum number to be admitted is limited to 40. The position in the University examination and the age of the candidate will be taken into consideration when selection is

made, and such selection will be made by the Principal.

The tuition fee for students to the Engineer class is Rs. 10 a month for each month of

the year, vacation included.

Ten scholarships will be awarded to students entering the Engineer Department not being already holders of junior or senior scholarships. Two of these will be reserved for Europeans and Eurasians. Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour and

Form of application for admission and any further particulars will be supplied upon

application.

A. MACDONELL,

The 8th April 1905.

Offg. Principal, Civil Engineering College, Sibpur.

CIVIL ENGINEERING COLLEGE, SIBPUR. APPRENTICE DEPARTMENT.

SESSION 1905-1906.

CANDIDATES for admission to the Apprentice Department should apply to the Principal in the prescribed form on or before the 6th May 1905. Each application must be accompanied by a registration fee of Re. 1.

The session begins on Monday, the 5th June 1905. Candidates must furnish proof that they have passed one of the following tests:—

) Standard VII or Middle School Examination of the Code of European Schools.

(2) University Entrance Examination.

The candidate's age must be at least fifteen and not more than seventeen years. There are forty-five vacancies for natives and nine for Europeans and Eurasians. The selection of candidates for admission will be made by the Principal.

There is one vacancy on the free list for Christian Apprentices in June next and there are three on the reduced fee list. For natives there are five vacancies on the reduced fee list, and six more will become vacant during the month of June. Election to these lists will be made by the Board of Visitors. Forms to be filled up for the consideration of the Board can be had on application to the Principal.

Every applicant before admission to the College will be examined by the College Surgeon as to his physical strength, fitness for manual labour and eyesight.

Before an applicant is admitted to the College his parent or guardian must sign an agreement in the prescribed form.

agreement in the prescribed form. All applications from Christian candidates for admission to the free or reduced fee lists must reach the Principal not later than 6th May, so as to enable the elections to be made by the Board of Visitors before the opening of the session.

The vacancies on the native list will be filled up after the opening of the session from those apprentices who have joined the College after admission. Forms of application for admission and further particulars will be supplied on application.

SIBPUR. The 8th April 1905.

A. MACDONELL, Offg. Principal, Civil Engineering College, Sibpur.

VERNACULAR MASTERSHIP EXAMINATION, 1905.

Presidency, Burdwan, Dacca, Chittagong, and Rojshahi Divisions.

THE undermentioned candidates have passed the Examination:-

CALCUTTA.						JONE I	

CALCUTTA,
The 28th March 1905.

A. PEDLER,
Director of Public Instruction, Bengal.

THE APPOINTMENT AND PROCEEDINGS OF INSTRUCTIONS FOR VISITING COMMITTEES OF SECONDARY SCHOOLS MAINTAINED FROM PUBLIC FUNDS. (APPROVED IN GOVERNMENT ORDER No. 1812(EDN.), DATED 31st MARCH 1905.)

[These rules are supplementary to the rules for the management of schools, which are already in force.]

For every secondary school managed by Government or by a District Board, Municipal Committee or Joint-Committee there should be Visiting Committees, consisting of local

residents adequately representing the classes from which the students are drawn.

For Government schools, except collegiate schools, the members of the Visiting Committees should be appointed by the District Officer in consultation with the Inspector of Schools. For collegiate schools they should be appointed by the Director of Public Instruction on the nomination of the Principals of the attached colleges, who should consult suitable local authorities before sending in their selections.

3. For schools managed by District Boards, Municipal Committees or Joint-Committees, the members should be appointed from among the members of the District and Local Boards, Municipal Committees or Joint-Committees, as the case may be, by the Chairmen concerned.

Other gentlemen interested in education may also be appointed members.

4. The term of office of members of Visiting Committees should be for a period of three years from the date of their appointment. Any member should be eligible for reappointment at the end of that period at the discretion of the appointing authority. Members who have not fulfilled the duties for which they were appointed should not be reappointed on the expiry of the three years' term of office. A member should be appointed whenever a vacancy occurs.

5. Visiting Committees shall have no power to issue any orders to the Head Masters of schools, their functions being confined to the offering of advice for the consideration of the

school authorities and the officers of the Education Department.

6. The Visiting Committee of a school should inspect the institution at least once a quarter. Visits should not, however, be paid to the school during school-hours more often than once a month. Due notice of visit should ordinarily be given to the Head Master, but surprise visits may be made when necessary. The number of members visiting a school

on any occasion should not be more than two.

7. The Visiting Committee should either record their opinion in the Visitors' Book of the school for the information of the Inspector or the Deputy Inspector of Schools, or the Principal of the College, as the case may be, or may communicate their suggestions in writing direct. A copy of the remarks should also be forwarded in the case of schools managed by District Boards, Municipal Committees or Joint-Committees to the Chairman concerned within three days of the inspection.

8. The members of every Visiting Committee should elect from amongst themselves a Chairman and a Secretary, and submit their names to the District Officer, the Director of Public Instruction or the Chairman of the District Board, Municipal Committee or Joint-

Committee, as the case may be, for approval.

9. A meeting of a Visiting Committee should be called by the Secretary when considered necessary, or at the requisition of any two members of the Committee, for the general discussion of matters relating to the school. Not less than seven days' notice should be given

of any meeting.

10. The notice should set forth the business to be transacted at the meeting, and no business other than that so stated should be transacted, except with the consent of all the members present. When any business of which notice has not been given is considered at a meeting, the decision recorded or resolution adopted at such meeting should be communicated forthwith to all the members, and the subject should be capable of being re-opened at a subsequent meeting convened on a requisition made by three members of the Committee within seven days of the communication of the original resolution; but, save as hereinbefore mentioned, no subject once finally disposed of should be reconsidered within six months,

unless two-thirds of the members consent by signing a requisition.

11. The maximum number of members of a Visiting Committee should be ten and the minimum six, and one third of the members in office should form a quorum. The Chairman should have a casting vote, in addition to his ordinary vote, in cases where the votes of the members present are equally divided. In the absence of the Chairman, one of the members present should be elected to preside. Committees should formulate any further rules of

business that may be necessary.

12. Under the directions of the Committee, the Secretary should carry on correspondence with the preper authorities on behalf of the Committee, and be in charge of all

papers belonging to the Committee.

13. The Secretary shall keep a record of the proceedings of each meeting and submit it to the next meeting for confirmation. Such proceedings and all work done by a Committee shall be duly recorded in a book kept for the purpose, which should be open for inspection by all inspection of the Edward o by all inspecting officers of the Education Department.

INSTRUCTIONS FOR THE APPOINTMENT AND PROCEEDINGS OF COMMITTEES OF MANAGEMENT OF AIDED SECONDARY SCHOOLS. (APPROVED IN GOVERNMENT ORDER No. 1812(EDN.), DATED 81st MARCH 1905.)

[These rules are supplementary to the rules already in force in schools aided by Government or by District Boards and Municipalities.]

1. The general management of an aided secondary school, high or middle, is subject to the rules prescribed from time to time by Government or the Department for the management of aided schools. The local management should remain in the hands of a Committee of Management, the members of which should be so selected as to represent all classes of the community—legal, commercial, trading, industrial and agricultural; but in cases in which the Director of Public Instruction is satisfied that the promoters of a school can give guarantees for efficient management otherwise, it will be sufficient if it is placed under a Visiting Committee as in the case of a school maintained from public funds.

2. Appointments to a Committee of Management should be made with the approval

of-

(a) The District Officer, in consultation with the Inspector of Schools, in the case of a school aided by Government;

(b) The Chairman of the District Board or Municipal Committee, in the case of a

school aided by a District Board or Municipal Committee.

3. The members of a Committee of Management of a school should elect from amongst themselves a Chairman, a Secretary and an Auditor, and submit their names to the

District Officer or the Chairman, as the case may be, for previous approval.

4. A meeting of the Committee should be called by the Secretary, usually once every month (except in the long vacation months), or oftener if need be. Not less than seven days'

notice should be given of any meeting.

5. The notice should set forth the business to be transacted at the meeting, and no business other than that so stated should be transacted, except with the consent of all the members present. When any business of which notice has not been given is considered at a meeting, the decision recorded or resolution adopted at such meeting should be communicated forthwith to all the members, and the subject should be capable of being re-opened at a subsequent meeting convened on a requisition made by three members of the Committee within seven days of the communication of the original resolution; but, save as hereinbefore mentioned, no subject once finally disposed of should be reconsidered within six months, unless two-thirds of the members consent by signing a requisition.

6. The monthly audited accounts should be presented at the next month's meeting of

the Committee for the purpose of being passed.

7. The maximum number of members of a Committee should be ten and the minimum six, and one-third of the members in office should form a quorum. The Chairman should have a casting vote, in addition to his ordinary vote, when the votes of the members present are equally divided. In the absence of the Chairman, one of the members present should be elected to preside. Committees should formulate any further rules of business that may be necessary

8. Under the direction of the Committee, the Secretary should carry on correspondence with the proper authorities on behalf of the Committee. He should also keep a record of the proceedings of each meeting and submit it to the next meeting for confirmation. Such proceedings and all work done by the Committee should be duly recorded in a book kept for

9. The trust-deeds and other important papers relating to the school should be in charge of the Secretary or of some resident member of the Committee, except those which it is necessary to keep in the special charge of the Head Master; but all papers relating to the school in the shape of accounts and records should be available at any time for inspection by all inspecting officers of the Education Department.

10. No teacher should be appointed, promoted, suspended or removed, except by a resolution passed at a meeting of the Committee. In all cases of appointment, promotion and removal of the staff, the Head Master's opinion should be on record, and the Committeshould always record reasons for removal, punishment, stoppage of promotion and supere

session of the staff.

In exceptionally urgent cases relating to teachers other than the Head Master, however, the Secretary should, after consultation with the Head Master, make a provisional appointment in anticipation of the Committee's sanction; but the matter should be reported to the

Committee at their next meeting for approval.

Similarly a provisional arrangement should be made by the Secretary in consultation with the Chairman, and subject to the approval of the Committee, in respect of a vacancy in the Head Mastership when the case is exceptionally urgent; but this should not be taken to dispense with the necessity of final confirmation by the existing educational authorities, as required under the grant-in-aid rules.

11. Subject to the provisions of the grant-in-aid rules, the list of holidays will be settled by the Secretary, in consultation with the Head Master. In the case of a difference of opinion between the Secretary and the Head Master, the matter should be referred to the

Committee for decision.

12. The arrangement of classes, the settlement of the school routine, and all other details relating to school discipline and teaching should be in charge of the Head Master, acting under the advice of the departmental educational officers, but the Committee, however, should have the right to offer their opinion and advice in these matters in writing to the Inspector or the Deputy Inspector of Schools.

13. All questions relating to the promotion of boys and the selection of candidates for the Entrance and Scholarship examinations should remain in the hands of the Head Master and be subject to the supervision of the inspecting officers of the Education Department only. A. PEDLER,

Director of Public Instruction, Bengal.

STATE TECHNICAL SCHOLARSHIPS FOR NATIVES OF BENGAL.

1. With a view to provide for natives of India the higher technical education which may qualify them to assist in promoting the improvement of existing native industries, and the development of new industries wherever this may be possible, the Government of India are ready, as an experimental measure, to give a small number of Technical scholarships, if promising candidates, well qualified in some particular branch of industry, present themselves.

The outlines of the scheme are sketched out below.

2. Value of the scholarships.—The value of the scholarships has been fixed at £150 a year, in addition to fees payable to the institutions where the scholars will study and travelling expenses; but Government will consider proposals for increasing it in special cases.

3. Places and periods of tenure.—Each scholarship is tenable for an average period of

two years, which may be increased or reduced in special cases.

4. The scholarships may be held in Great Britain, on the Continent of Europe, or in America, and are payable from the date of the scholar's arrival in the country which he may

select for study.

5. Subjects of study —Law, Medicine, Forestry, Veterinary Science, Agriculture and Engineering have been excluded from the scope of the present proposal. The scholarships are in the first instance proposed to be used for the encouragement of the mining industry in Bengal, but any other branch of industry can similarly be helped and fostered. Industries in which native capital and enterprise are engaged, or likely to be engaged, and in which the trained scholar might, on return to his country, find scope for his skill and ability, will be particularly appropriate for selection.

6. Conditions of award.—The scholarships are tenable by persons who are natives of India within the meaning of section 6 of the Statute, 33 Vic., Cap. 3. A competent knowledge of English, or the language of any other country in which the candidate proposes to work

and study is essential to enable him to take full advantage of the course of study.

In the matter of selection of scholars, Government will be guided by considerations of the candidate's capacity, intelligence, particular interest in and connection with the industry selected, and the assurance that he will continue to devote himself to the subject on his return to India. These being matters which cannot be decided by the holding of degrees obtained by examination, or by competition, no special examination is considered necessary and none will be held. But a scholar before nomination should have received the best technical education available in the Province, in the particular industry which he has to study, and no candidate will be considered qualified unless he has displayed an aptitude for technical study.

8. No age-limit has been fixed. But it may be fixed by Government in certain cases.

9. The candidates for scholarships should submit certificates attesting (a) their moral character. (b) knowledge of the largest of the country in which they elect to study, and (c)

character, (b) knowledge of the language of the country in which they elect to study, and (c) physical capacity, from recognized persons who may be considered fit to certify to these facts.

These certificates will not be returned. 10. The scholars in England or elsewhere, as the case may be, will be under the control and supervision of the Secretary of State. The conditions under which they will hold the scholarships will be similar to those laid down for Government of India scholarships, and power will be retained to cancel a scholarship and to send the scholar back to India if his

progress and conduct be not satisfactory. 11. Returned scholars.—No scholar will be bound on his return to India by any engagement to serve Government or a private firm, and the choice of his career will be in the first instance determined, on his return from Europe by his own inclination. Should any occasion arise, Government will be glad to turn his ability and increased knowledge to account as teacher in an Industrial school or in other capacities connected with the improvement of local industria local industies.

12. Applications from natives of Bengal for such scholarships for the development of the mining industry, in the first instance, should be made direct to the Director of Public Instruction, Bengal, on or before the 1st May 1905. Full particulars should be furnished as

to the past educational experience, training and future requirements of each applicant for a scholarship. Applicants should also indicate, if possible, what they wish to work at in their future careers on return to India. The scholarships will be awarded by the Government of India on the recommendation of the Local Government.

CALCUTTA. The 4th April 1905. A. PEDLER,

Director of Public Instruction, Bengal.

CALCUTTA, The 10th April 1905. V. H. JACKSON.

Assistant Director of Public-Instruction Lengal.

NOTICE.

In reference to this Department notification dated the 26th January 1905, regarding the syllabus for English Readers for Standards III to VI for schools for Indian pupils, notice is given that such books (with the usual applications) should be submitted to the Director of Public Instruction for transmission after preliminary examination to the Text-Book Committee, not later than the 1st May 1905.

2. The application should state clearly that the books have been written in accordance with this Department notification dated the 26th January 1905.

3. Arrangements will then be made for the rapid examination of those books, and those which are approved will be included in the July list of approved books.

4. Unless this is done authors of such text-books will stand no chance of having their books selected for the scholarship courses for 1907, which will be published in August 1905.

books selected for the scholarship courses for 1907, which will be published in August 1905.

(See Rule 10).

CERTIFICATE GRANTED UNDER THE LAND IMPROVEMENT LOANS ACT 1883.

On production of this certificate the aforesaid is entitled to receive from the Collector of the following sums on the dates noted against each, as a loan to be expended on (here describe clearly the nature of the improvement) the land specified in the margin :-

> Dates. Amounts.

2. The conditions relating to the making and repayment of this loan are as follows :-(a) That-it, with the interest thereon, shall be repayable on the dates and by the amounts specified below:-

> Principal. Date. Interest. Total.

(b) That in the case of a loan granted by instalments, if the applicant, after taking one or more instalments, fails to take any other instalment within six weeks from the date on which he is entitled to it, the Collector may declare the loan closed. The total of the instalments taken by the applicant shall then constitute the loan, which shall be treated as having been fully paid on the date on which the last instalment was actually taken; and a fresh arrangement for repayment shall be made by the Collector, consistent with rules 7 and 8, in modification of this certificate.

(c) That interest shall be levied for the period intervening between the date of the completion of the loan (in cases in which loans are granted in one payment), or between the dates of the payment of the instalments (in cases in which loans are granted in instalments), and the date from which the first instalment of interest, consolidated with the first instalment of the principal, becomes payable. The interest leviable in such cases shall be demanded in a lump sum six months before the date on which the first consolidated instalment of principal and interest is made payable.

(d) That it shall be applied solely to the purpose specified above, and that if it shall be proved to the satisfaction of the Collector that any part of the loan has been misapplied, the whole amount of the loan, shall, with such interest as

may have become due thereon, be deemed to have become due.

(e) That unless *the work has been completed by These clauses to be to only when needed or any extension of the said date granted by the Collector, the loan shall be held to have been misapplied.

(1) That for the repayment of the loan, with any interest due on the same, the immoveable property specified in the margin is hypothecated to Government.

(g) That if any instalment is not paid on the due date, the whole amount of the loan shall be deemed to have become due.

(h) If it shall be proved to the satisfaction of the Collector that the statements made in his application for this loan, as to the nature by the aforesaid and extent of encumbrances, are in any particular untrue, the Collector may so declare in writing, and thereupon the whole of such loan with such interest as may become due thereon shall forthwith become due and payable.

* Here enter any conditions as to the period or periods appointed for completing the work. T Here insert the date.

Signature of Collector.

I understand and agree to the aforesaid terms and conditions.

Signature of Certificate-holder.

N. B.-1. Both the land to be improved and all the immoveable property hypothecated as collateral security, whether by the borrower himself or by a surety or sureties, should be described in the marginal specification as nearly as possible in the manner prescribed in section 21 of the Indian Registration Act, 1877.

2. In the description of the immoveable property to be given in the margin of clause (f) paragraph 2 above, it shall be stated if the property is free from encumbrances, and, if not, what are the nature and extent of the encumbrances.

FORM D.

(See Rule 10).

Hypothecation Bond to be used when immoveable property is proferred by Collateral Surety.

Whereas has on received from the Collector of a certificate under the Land Improvement Loans Act, 1883, in virtue of which he is entitled to receive the aggregate sum of Rs. as a loan from Government; and whereas security for the due application of the loan, and for the punctual repayment of the same, according to the terms of the certificate, is demanded from him, I hereby mortgage to Government the immoveable property mentioned in the schedule below as collateral security, and agree that if he fails to comply with the terms on which the loan has been granted, either by misapplying the same or by failing to pay any instalment on the date fixed for its payment, it shall be lawful for the Collector to recover from the said property such sum as may be necessary to make good the amount which, in consequence of tailure to comply with the conditions of the certificate, may be due from me.

Schedule.

 $\frac{1}{W_0}$ declare that the statements made by $\frac{m_0}{us}$ in the above schedule as regards the nature and extent of the encumbrances on the immoveable property mortgaged by $\frac{m_0}{us}$ as security for the repayment of the loan granted to are true to $\frac{m_y}{our}$ knowledge, save as to matters stated on information and belief, and as to these $\frac{T}{W_0}$ believe the same to be true.

N. B.-1. In describing the immoveable property to be mentioned in the schedule above, it shall be stated whether the property is free from encumbrances, and, if not, what are the nature and extent of the encumbrances.

II.—UNDER THE AGRICULTURISTS' LOANS ACT.

- (ii) Where sureties offer personal security, their number, names, residence, status, and means
- (iii) Where sureties offer to mortgage immoveable property then their names, and the nature and value of the property and the extent of pre-existing encumbrances thereon, if any

IV .- Repayment-

(i) Suitable date for first instalment with reference to the circumstances under which the loan is applied for

(ii) Proposed instalments and period of repayment

V.—Date on which the loan or any instalment thereof should be received by the applicant

Recommendations of Inspecting Officer.

FORM B.

(See rule 9.)

Order granting loan under the Agriculturists' Loans Act, 1884, and the rules made thereunder , son of

1. On production of this order the aforesaid is entitled to receive from the Collector of the following sums, on the dates noted against each, as a loan to be expended on (here describe clearly the object of the loan) :-

Dates

Amounts.

2. The conditions relating to the making and repayment of this loan are as follows:-

(a) That it, with the interest and costs (if any) due in respect thereof, shall be repayable on the dates and by the amount specified below :-

Date.	Principal.	Interest.	Cost.	Total.
**	,,	,,	,,	"
"	- 11	,,,	22	11

(b) That in the case of a loan granted by instalments, if the applicant, after taking one or more instalments, fails to take any other instalment within six weeks from the date on which he is entitled to it, the Collector may declare the loan closed. The total of the instalments taken by the applicant shall then constitute the loan, which shall be treated as having been fully paid on the date on which the last instalment was actually taken; and a fresh arrangement for repayment shall be made by the Collector, consistent with Rules 6 and 7, in modification of this order.

(c) That interest shall be levied for the period intervening between the date of the completion of the loan (in cases in which loans are granted in one payment), or between the dates of the payment of the instalments (in cases in which loans are granted in instalments), and the date from which the first instalment of interest, consolidated with the first instalment of the principal, becomes payable. The interest leviable in such cases, shall be demanded in a lump sum six months before the date on which the first consolidated

instalment of principal and interest is made payable.

(d) That it be applied solely to the purpose specified above, and that, if it is proved to the satisfaction of the Collector that any part of the said loan has been misapplied, the whole amount of the loan shall, with such interest and costs (if any) as may have become payable in respect thereof, be deemed to have

become due.

(e) That if any instalment is not repaid on the due date, the whole amount payable in respect of the loan shall be deemed to have become due.

That as security for the repayment of the loan, with any interest and costs that may become payable in respect of the same, the immoveable property specified in the margin is hereby mortgaged to Government. ment.

(g) If it shall be proved to the satisfaction of the Collector that the statements made by the aforesaid in his application for this loan, as to the nature and extent of encumbrances, are in any particular untrue, the Collector may so declare in writing and thereupon the whole of such loan with such interest as may become due thereon shall forthwith become due and payable.

(Signature of Collector.)

I understand and agree to the aforesaid terms and conditions.

(Signature of person to whom the loan is made.)

N.B.—In the description of the immoveable property to be given in the margin of clause; (f) paragraph 2 above, it be stated if the property is free from encumbrances, and if not, what are the nature and extent of the encumbrances.

FORM D.

(See rule 9.)

Security bond to be used when the security given by a surety or sureties consists of a mortgage of immoveable property.

Whereas has on received from the Collector of an order under the Agriculturists' Loans Act, 1884, and the rules made thereunder in virtue of which he is entitled to receive the sum of Rs. as a loan from Government for the purpose of (here state the purpose for which the loan is given) and whereas security for the due application of the loan and for the punctual repayment of the same according to the terms of the order is demanded from the said

(or we) mortgage to Government the immoveable property mentioned in the schedule below as security for the purposes aforesaid and agree that if the said fails to comply with the terms on which the loan

has been sanctioned either by misapplying the said loan or by failing to repay any instalment of the same or any interest or costs payable in respect thereof on the date on which it may become due it shall be lawful for the Collector to recover from me personally or from the said property or from both such sum as may be necessary to make good the amount which in consequence of the said

's default may have become due to Government.

Schedule.

II.

 $\frac{1}{We}$ declare that the statements made by $\frac{me}{us}$ in the above schedule as regards the nature and extent of the encumbrances on the immoveable property mortgaged by $\frac{me}{us}$ as security for the repayment of the loan granted to are true to $\frac{mv}{our}$ knowledge, save as to matters stated on information and belief, and as to these $\frac{1}{we}$ believe the same to be true.

Signature.

N.B.-In describing the immoveable property to be mentioned in the Schedule above, it shall be stated whether the property is free from encumbrances and, if not, what are the nature and extent of the encumbrances.

No. 113T.R.—The 15th April 1905.—Mr. L. E. B. Cobden-Ramsay, 1.o.s., Officiating Joint-Magistrate and Deputy Collector, is appointed to be Registrar of Co-operative Credit Societies for Bengal, under section 5 of the Co-operative Credit Societies Act, 1904 (Act X of 1904).

No. 162T.R.—The 17th April 1905.—Whereas the Manager of the Bhukailash Estate, now under the Court of Wards, has applied for the survey and the preparation of a record-of-rights in respect of all lands included in the villages named below, appertaining to Estate Patikara, in pargana Patikara, bearing No. 208 in the revenue-roll of the district of Tippera but situated in the district of Dacca:

In exercise of the powers conferred upon him by section 101 (2) (c) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.C.) of 1898, the Lieutenant-Governor is pleased to direct that a survey shall be made and a record-of-rights be prepared in respect of all lands included in the said villages.

The particulars to be recorded in the survey and record-of-rights shall be the

following:

(a) the name of each tenant or occupant;
(b) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rates, settled raiyat, occupancy-raiyat, non-occupancy raiyat, or under-raiyat; and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure;

(c) the situation, quantity and one or more of the boundaries of the land held by

each tenant or occupier;

(d) the name of each tenant's landlord;
(e) the money-rent payable at the time the record-of-rights is being prepared; or if a produce-rent, the fact that produce-rent is paid, and the customary terms according to which such rent is paid;

(f) the mode in which that rent has been fixed-whether by contract, by order of a

Court, or otherwise;

(g) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases;

(h) the special conditions and incidents, if any, of the tenancy;

(i) if the land is claimed to be held rent-free, whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority;

(j) the name of each proprietor (including rent-free owner) with the character and extent of his interest, and the situation, quantity, and one or more of the boundaries of each proprietor's private lands, as defined in Chapter XI of the Act:

(k) the customs of the villages regulating the methods of irrigation, and the duties and rights of both landlords and tenants with respect to the use and maintenance of the means of irrigation.

V. H. JACKSON,

Assistant Director of Public Instruction, Bengal.

CALCUTTA, The 11th April 1905.

STATE TECHNICAL SCHOLARSHIPS FOR NATIVES OF BENGAL.

With a view to provide for natives of India the higher technical education which may qualify them to assist in promoting the improvement of existing native industries, and the development of new industries wherever this may be possible, the Government of India are ready, as an experimental measure, to give a small number of Technical scholarships, if promising candidates, well qualified in some particular branch of industry, present themselves. The outlines of the scheme are sketched out below.

2. Value of the scholarships.—The value of the scholarships has been fixed at £150 a year, in addition to fees payable to the institutions where the scholars will study and travelling expenses; but Government will consider proposals for increasing it in special cases.

3. Places and periods of tenure. - Each scholarship is tenable for an average period of

two years, which may be increased or reduced in special cases.

4. The scholarships may be held in Great Britain, on the Continent of Europe, or in America, and are payable from the date of the scholar's arrival in the country which he may select for study.

5. Subjects of study.—Law, Medicine, Forestry, Veterinary Science, Agriculture and Engineering have been excluded from the scope of the present proposal. The scholarships are in the first instance proposed to be used for the encouragement of the mining industry in Bengal, but any other branch of industry can similarly be helped and fostered. Industries in which native capital and enterprise are engaged, or likely to be engaged, and in which the trained scholar might, on return to his country, find scope for his skill and ability, will be

particularly appropriate for selection.

6. Conditions of award.—The scholarships are tenable by persons who are natives of India within the meaning of section 6 of the Statute, 33 Vic., Cap. 3. A competent knowledge of English, or the language of any other country in which the candidate proposes to work and study is essential to enable him to take full advantage of the course of study.

7. In the matter of selection of scholars, Government will be guided by considerations of the candidate's capacity, intelligence, particular interest in and connection with the industry selected, and the assurance that he will continue to devote himself to the subject on his return to India. These being matters which cannot be decided by the holding of degrees obtained by examination, or by competition, no special examination is considered necessary and none will be held. But a scholar before nomination should have received the best technical education

available in the Province, in the particular industry which he has to study, and no candidate will be considered qualified unless he has displayed an aptitude for technical study.

8. No age-limit has been fixed. But it may be fixed by Government in certain cases.

9. The candidates for scholarships should submit certificates attesting (a) their moral character. (b) knowledge of the largest of the country in which they elect to study, and (c) character, (b) knowledge of the language of the country in which they elect to study, and (c) physical capacity, from recognized persons who may be considered fit to certify to these facts. These certificates will not be returned.

10. The scholars in England or elsewhere, as the case may be, will be under the control and supervision of the Secretary of State. The conditions under which they will hold the scholarships will be similar to those laid down for Government of India scholarships, and power will be retained to cancel a scholarship and to send the scholar back to India if his progress and conduct be not satisfactory.

11. Returned scholars.—No scholar will be bound on his return to India by any engagement to serve Government or a private firm, and the choice of his career will be in the first instance determined, on his return from Europe by his own inclination. Should any occasion arise, Government will be glad to turn his ability and increased knowledge to account as teacher in an Industrial school or in other capacities connected with the improvement of local industies.

12. Applications from natives of Bengal for such scholarships for the development of the mining industry, in the first instance, should be made direct to the Director of Public Instruction, Bengal, on or before the 1st May 1905. Full particulars should be furnished as to the past educational experience, training and future requirements of each applicant for a scholarship. Applicants should also indicate, if possible, what they wish to work at in their future careers on return to India. The scholarships will be awarded by the Government of India on the recommendation of the Local Government.

CALGUTTA,

The 4th April 1905.

A. Pedler,

The course will begin on Tuesday, the 7th March, at 6-30 P.M., and will be continued on Tuesdays and Fridays at the same hour until further notice. The first lecture will be open to the public. The subject will be treated popularly. open to the public.

The fee for the whole course will be Rs. 5, payable in advance.

Tickets may be obtained from the College office between 11 A.M. and 4 P.M. on week days.

CALCUTTA,

The 20th March 1905.

P. K. RAY,

Offg. Principal, Presidency College.

CIVIL ENGINEERING COLLEGE, SIBPUR. ENGINEER DEPARTMENT.

Session 1905-1906.

CANDIDATES for admission to the Engineer Department should apply to the Principal in the prescribed form on or before the 15th May 1905. Each application must be accompanied by a registration fee of Re. 1.

The session begins on Monday, the 5th June 1905. Candidates must furnish proof that they have passed one of the following tests:—

(1) The B.A. Examination in the B course in Physics and Chemistry of the Calcutta University. The candidate's age must be under 23 years.

The F.A. Examination of the Calcutta and Madras Universities.

The Intermediate Examination of Allahabad and Punjab Universities. (8)

(4) The Intermediate Examination for the degree of B.A. of Bombay University.
 (5) The High School Examination for Europeans and Eurasians.

The candidate's age in (2), (3), (4) and (5) must be under 21 years.

In selecting candidates who have passed the F.A. (all other things being equal), preference will be given to those who have passed in Sanitary Science in addition to the ordinary subjects of the F.A. Examination.

The maximum number to be admitted is limited to 40. The position in the University examination and the age of the candidate will be taken into consideration when selection is made, and such selection will be made by the Principal.

made, and such selection will be made by the Principal.

The tuition fee for students to the Engineer class is Rs. 10 a month for each month of

the year, vacation included.

Ten scholarships will be awarded to students entering the Engineer Department not being already holders of junior or senior scholarships. Two of these will be reserved for Europeans and Eurasians. Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour and

Form of application for admission and any further particulars will be supplied upon

application.

APPRENTICE DEPARTMENT.

SESSION 1905-1906.

CANDIDATES for admission to the Apprentice Department should apply to the Principal in the prescribed form on or before the 6th May 1905. Each application must be accompanied by a registration fee of Re. 1.

The session begins on Monday, the 5th June 1905. Candidates must furnish proof

that they have passed one of the following tests :-

Standard VII or Middle School Examination of the Code of European Schools.
 University Entrance Examination.

The candidate's age must be at least fifteen and not more than seventeen years.

There are forty-five vacancies for natives and nine for Europeans and Eurasians.

selection of candidates for admission will be made by the Principal.

There is one vacancy on the free list for Christian Apprentices in June next and there are three on the reduced fee list. For natives there are five vacancies on the reduced fee list, and six more will become vacant during the month of June. Election to these lists will be made by the Board of Visitors. Forms to be filled up for the consideration of the Board can be had on application to the Principal.

Every applicant before admission to the College will be examined by the College Surgeon as to his physical strength, fitness for manual labour and eyesight.

Before an applicant is admitted to the College his parent or guardian must sign an applicant in the prescribed form.

agreement in the prescribed form. All applications from Christian candidates for admission to the free or reduced fee lists must reach the Principal not later than 6th May, so as to enable the elections to be made by the Board of Visitors before the opening of the session.

The vacancies on the native list will be filled up after the opening of the session from those apprentices who have joined the College after admission. Forms of application for admission and further particulars will be supplied on application.

SIBPUR, The 8th April 1905.

A. MACDONELL, Offg. Principal, Civil Engineering College, Sibpur.

SEN	ATE HOUSE,				K. C. BANURJI,

The 17th April 1905)

NOTICE.

THE half-yearly examination of Teachers in the Art of Teaching (approved in Government order No. 1500T.—G., dated the 17th September 1904) will, for the Dacca Division, be held in the Collegiate School, Dacca, on the 28th and 29th August 1905, for teachers of English subjects, and at the Dacca Training School on the 30th and 31st August 1905, for Teachers of Vernacular subjects.

Teachers of English subjects must ordinarily have passed the Entrance Examination, or some higher examination before they can be examined in the Art of Teaching. Exceptions may be made in the case of experienced teachers who have not passed the Entrance Examination. Teachers of vernacular subjects must have at least passed the Middle Vernacular Examination. Candidates for either examination should send in their names to this office on or before the 10th August 1905, and should bring their examination certificates with them on the day of examination.

H. A. BAMFORD,

DACCA.

The 4th April 1905.

Inspector of Schools, Dacca Division

CALCUTTA UNIVERSITY.

NOTICE.

THE Griffith Prize for 1905 will be awarded by the Syndicate in the course of 1906. The subject for the Prize will be an essay or record of original work in some Department of Letters.

All persons who have taken the degree of Bachelor in the Faculty of Arts or the corresponding degree in any other Faculty in this University will be allowed to compete.

Each candidate will be required to send his essay or record of work to the Registrar under a distinguishing motto. The name of the candidate must be forwarded at the same time in a sealed cover with the motto outside. Such essays or records of original work must reach the Registrar on or before the 31st December 1905.

The value of the Prize for 1905 will be Rs. 900.

K. C. BANURJI, Registrar, Calcutta University.

ENATE House, The 15th April 1905.

NOTIFICATION.

It is hereby notified for general information that on the result of the Entrance Examination of 1905 the eleven third grade junior scholarships allotted to this Division under Government order No. 2916, dated the 9th September 1902, will be distributed as follows:—

By order of the Board of Revenue, L. P.,

H. F. SAMMAN, Offg. Secretary.

BOARD OF REVENUE, L. P., CALCUTTA, the 27th March 1905.

No. 2939B.

NOTIFICATION.

CUSTOMS.

THE HON'BLE MR. K. G. GUPTA, I.C.S.

Dated Calcutta, the 18th April 1905.

In supersession of the Notification, dated the 3rd January 1893, published in Part I, page 71, of the Calcatta Gazette of the 25th idem, it is hereby notified to all whom it may concern, under the provisions of secs. 9 and 72 of the Sea Customs Act, 1878, that the Collector of Customs, Chittagong, is ordinarily prohibited from granting permission to work cargo in sea-going vessels on Sundays. He shall, however, give written permission in the following cases:-

- When the application to work is supported by a declaration in a prescribed form signed by the owner or agent of the vessel, certifying that the permission is absolutely necessary to enable the vessel to leave the port owing to the state of the river or to the condition of the weather.
- II. When the application is made on grounds of special urgency, provided the Collector of Customs is satisfied that such grounds are sufficient.
- When a vessel is a mail or regular steamer which calls at the port at fixed intervals. III.
- When the vessel is a native brig on which no European is employed.

 When the application is made to discharge or load live-stock, ship's stores, ballast or coal for the ship's use.

2. These orders do not modify the existing orders under which a fee of Rs. 6 is charged for the services of the Inspector and Preventive Officer, or the orders contained in the Resolution of Government, in the Financial Department, dated the 24th September 1888, under which a fee of Rs. 100 is payable on Christmas Day, Good Friday, the King's Birthday and the 1st of January, in addition to the ordinary fee for the Inspector and the Preventive Officer.

By order of the Board of Revenue, L. P.,

H. F. SAMMAN,

Offg. Secretary.

ELECTION OF MUNICIPAL COMMISSIONERS.

NOTIFICATION.

It is hereby notified for general information that the following gentlemen are appointed to be members of the Committee for the management of the Dispensary at Nabinagar, in the district of Gaya, in supersession of those appointed in December 1901:—

- 1. Babu Naurangdeo Narain Sinha.
- ,, Inderdeo Narain Singh.
 ,, Sunderdeo Narain Singh.
- Harsahai Lal.
 Kali Prasad Singh.
- 6. Shaikh Nabijan.
- 7. Babu Jai Prakash Singh.

C. R. MARRIOTT, Addl. Commissioner.

PATNA COMMR.'s OFFICE, BANKIPORE, the 15th April 1905.

NOTIFICATION

It is hereby notified for general information that two bye-elections will be held in Wards Nos. II and VIII of the Basirhat Municipality, in the district of the 24-Parganas, on Saturday, the 3rd June 1905, to elect Commissioners for those Wards in the place of Munshi Kanai Mondal and Din Mohammed Khan, who have been removed under section 20 (1) (c) of the Bengal Municipal Act as amended.

F. W. Duke, Offg. Commissioner.

COMMISSIONER'S OFFICE, PRESIDENCY DIVISION, CALCUTTA, the 17th April 1905.

NOTIFICATION.

It is hereby notified for general information that under section 27 of the Bengal Municipal Act, III of 1884, as modified up to 1st November 1896, a bye-election will be held in Ward No. V of the Midnapore Municipality on Friday, the 26th May 1905, to fill up the vacancy caused by the removal of Babu Peary Lal Dutta, one of the elected Commissioners of the Municipality.

N. L. BAGCHI, Personal Asst., for Offg. Commissioner on tour.

NOTIFICATION.

No. 302T .- R, dated the 24th April 1905 .- The Lieutenant-Governor of Bengal is pleased to direct that, with effect from the 1st May 1905, the following revised rules and forms shall be substituted for those published at pages 1207-1219, Part I of the Calcutta Gazette of the 16th September 1903 with the Government Notification No. 2093T.R., dated the 12th idem, on the subject of the payment of land revenue and cesses by means of postal money-orders.

> R. W. CARLYLE, Offg. Chief Secy. to the Govt. of Bengal.

RULES RELATING TO REVENUE MONEY-ORDERS.

1. These rules are divided into four parts :-

I.—Form of Revenue Money-order. II.—Issue of Revenue Money-orders. PART III.—Payment of Revenue Money-orders.

Section A - Payment from Head Offices at the head-quarters of districts.

B .- recedure to be followed in the Collectorate.

IV.—Disposal of Acknowledgments.

2. The forms in use are given in Appendix D.

PART I.

THE FORMS OF REVENUE MONEY-ORDER.

1. There are two forms of Revenue Money-order, viz., Form R MO on white paper, for Revenue Money-order, viz., Form R. M. O. O. Land revenue and zamindari dâk cess, and Form R. M. O. on land revenue and zamindari dâk cess, and Form Each of pink paper, for Road and Public Works cesses. these forms is divided into three parts, viz. :-

(a) The Money-order

(b) The Acknowledgment.(c) The Coupon or Chalan.

2. Part (a) requires no description, as it is exactly like the corresponding portion of the ordinary Inland Money-order form. Parts (b) and (c) are considerably larger than the acknowledgment and coupon of an ordinary money-order. Part (b) is on one side a duplicate of the chalan and is returned to the remitter as his receipt; on the reverse of this part are the remitter's name and address. Part (c) contains on one side all the particulars required by the Treasury, and on the reverse instructions for remitters of revenue money-orders.

3. Form 1 is to be used for remittances of land revenue and zamindari dak cess, and Form A. of for remittances of Road and Public Works cesses, and for no other purpose.

Not to be used for any other purposes.

4. The forms of Revenue Money order should be freely distributed among the revenuepaying classes, and no restrictions whatever should be placed To be freely distributed.

To be freely distributed.

5. Every Postmaster, Sub-postmaster, and Branch postmaster will be personally responsible that a sufficient supply of Revenue Money-order forms of each kind is always available in his office. In cases of emergency, supplies may be obtained by telegraph direct from the Stock Depot of the Circle. Divisional Superintendents and Inspectors, when visiting post-offices, will see that a sufficient supply of Revenue Money-order forms of each kind is available, and mention in their diaries and inspection reports that they have done so.

6. The Revenue Money-order system does not apply to remittances of revenue payable to any Native State. Such remittances should be made by the ordinary Money-order form and be dealt with under the ordinary rules for money-orders.

PART II.

ISSUE OF REVENUE MONEY-ORDERS.

7. Revenue money-orders are issued from every Head, Sub, and Branch Post-office under the rules which govern the issue of ordinary Inland money-orders. The following paragraphs contain additional Issue of Revenue money-orders. instructions, which relate solely to the issue of revenue money-orders.

8. The rules in the Postal Guide fixing the limit of value of a single ordinary Inland money order apply to revenue money orders. The rule Limit of amount.

amount of a money-order is not applicable to revenue money-orders, which may be for amounts including any fraction of an anna not less than one pie.

9. The Office of Issue will help the remitter in making the requisite entries, and, if necessary, will make entries for him in the form of a revenue money-order, but no fee or any other gratification whatsoever is to be demanded or accepted, either directly or indirectly,

by any official of the Postal Department for this service. Disregard of this order will be punished by dismissal of the official in fault, who will, moreover, be liable to any further penalties provided by law. If, notwithstanding the assistance thus offered, the remitter is unable to fill up the entries himself or to give the information necessary for the purpose, the money-order should be returned to him and should not be issued by the post-office, till the information is complete.

Note.—Remitters should also be advised to allow ample time for their revenue money-orders for land revenue to reach the Treasury before kist day, as the acceptance of a revenue money order after kist day does not exempt an estate from sale, except as permitted by the rules applicable to personal payment of land revenue after kist day.

The Office of Issue is responsible that no revenue money-order is issued of which the oupon (Chalan) is blank or is not completely filled up. Responsibilities of the Office of Issue. Responsibilities of the Office of Issue. The post-office has no means of ascertaining the correctness of the information supplied by a remitter; all that it is necessary to see is that entries are made against every printed item in the coupon (chalan), that these entries are made against the appropriate printed items, that all the items are understood by the remitter, and that the money-order is not for a larger sum than is allowed by the rules for ordinary Inland money-orders. The spaces in the acknowledgment and chalan for the entry of interest, penalty and expenses (kharcha) are intended to meet the requirements of remitters who are in arrears as regards the payment of their cesses, and have incurred liabilities for interest, penalty, process-fees, or other costs of proceedings. Every alteration or correction in the money-order must be attested by the initials of the remitter.

The letter "R" should be written before the number of every revenue money. 11. order, and this mode of distinguishing revenue money-orders Distinguishing of revenue moneyshould be adopted wherever the number is entered.

12. The number assigned to a revenue money-order by the Bead Office or Sub-office Number to be assigned to Revenue Money-orders, of Issue will also be entered at the top of the coupon (chalan) and acknowledgment by the money-order clerk of the Head Office or the Sub-postmaster of the Sub-office or Issue, as the case may be.

PART III.

PAYMENT OF REVENUE MONEY-ORDERS.

Section A .- Procedure in the Head Office of payment.

13. When the revenue money-orders are in all respects* ready to be handed over to the postman, they should be examined with reference to the name of the audit office stamped on them and a separate list in triplicate[†] (Form $\frac{2}{R.M.O.}$) should be made out by the money-order clerk for each audit office, the name of the audit office being noted in red ink at the head of the list.[‡] The money-orders should be entered in each list according to the offices of issue, and the entries in the money column of the list should be carefully totalled. The original copy of each list will take the place of the journal of money-orders paid, the duplicate will be sent to the Treasury under the procedure described below, and the triplicate will be sent to the audit office concerned. When for the preparation of a list more than a single sheet of Form $\frac{1}{R-M-O}$ is required, each sheet should be separately totalled and a grand total should be made at the end of the last sheet of the list or on a separate sheet. The date stamp of the office of payment should be impressed on the space provided for it on the reverse of the acknowledgment portion of each money-order.

Note.—When it is necessary to prepare one or more separate lists in addition to the list for the Home audit office, the total of each other list should be entered below the total of the list for the Home audit office and a grand total made both in figures and words. In that case too, after the words "detailed above" in the printed entry to be signed by the Postmaster at the foot of the original and duplicate of the list for the Home audit office should be inserted in manuscript the words "and in the accompanying list" or "and in the accompanying two lists" as the case may require.

14. The postmaster should then check the entries in each list with those on the moneyorders, and also check the total of the money column. He will then prepare a Treasury orders, and also check the total of the money column. He will then prepare a Treasury Voucher Form (A/c 12), representing the total value of the money-orders as entered in all the lists. The amount represented by the Treasury voucher will not be charged against the letter of credit, and will be paid quite independently of the balance of any letters of credit held by the Treasury in favour of the post-office. Postmasters before sending revenue money-orders to the Treasury should examine them carefully, and any error which might have been avoided should be brought to the notice of the Superintendent.

15. The duplicate copy of each list with the money-orders entered therein attached to it, and the Treasury voucher duly filled up, should then be made over to the postman for delivery at the Collectorate, the postman's receipt for the documents being taken in the usual manner in the Register of Money-orders received.

^{*}Only the total number and amount of revenue money-orders received for payment need be entered in the Register of money-orders received. In order, however that the record may be complete, it will be necessary to make a note in the last column of the Register whenever all the revenue money-orders received in see day are not included in the list of that date. For example, if in the Register of money-orders received on the 5th July there are shown 500 revenue money-orders for Rs. 10,000 but 300 of these orders for Rs 7,000 were received too late for inclusion in the list sent to the Collectorate on the fib, there should be an entry in the last column of the Register in this form:

200 for Rs. 3,000 included in list of 5th.

300 for Rs. 7,00 included in list of 5th.

+ The duplicate and triplicate will be prepared by carbonic paper, and a hard pencil must therefore be used in writing the list.

If on any date revenue money-orders stamped with the names of all three Audit offices are received for payment, it will be necessary to prepare three separate lists, each in triplicate.

16. The postman will take the duplicate copy of each list, the money-orders and the Treasury voucher to the Accountant, and will receive back from the Accountant the money-orders without the coupons and acknowledgments. The postman will be careful to see that he receives back all the money-orders and that they are all duly receipted by the Accountant, and in the case of money-orders for amounts exceeding Rs. 500, by the Treasury officer also.

17. The paid money-orders received back from the Treasury will be examined by the money-order clerk in the same way as ordinary money-orders, and checked in detail with the original list. The total amount of the money-orders entered in each list will then be

entered in the appropriate journal of money-orders paid by a single entry thus:

Rs. A. P.

"As per Revenue Money-order list disposed of in the usual way.

." The money-orders will be

18. The original and triplicate of each list will be kept with the appropriate journal of money-orders paid until the next list of ordinary money-orders paid is sent to the audit office when the corresponding list of revenue money-orders paid will also be sent, the paid money-orders being arranged in order and attached to the lists. The original lists will then be filed, a separate file of original lists being kept with each journal of money-orders paid, so that the dates of the journal and file of revenue money-order lists correspond.

19. The amount of the Treasury voucher will be entered in the head office summary, and the head office cash-book on the receipt side opposite the item, "Drawn from treasuries," and will be included in the sum entered on the disbursement side under the head, "Money-orders paid." The amount will also appear in the Treasury pass-book and Register of transactions with the Treasury

will also appear in the Treasury pass-book and Register of transactions with the Treasury as money drawn from the District Treasury. All these entries must be made on the same date.

Note.—The date referred to above is the date on which the money-orders are sent from the post-office to the Collectorate. If the procedure to be followed in the Collectorate is correctly observed, the money-orders will be credited in the Treasury on the same date. If, owing to press of work or other reasons, the money-orders are not credited in the Treasury on the same date, the entries in the head office summary, the head office cash-book and the Treasury pars-book should still be made as prescribed in rule 19 on the date on which the money-orders are sent to the Treasury for payment.

The money-orders should also be entered as paid on the same date in the appropriate paid list of money-orders; and if any revenue money-orders sent to the Collectorate have not been received back when the paid list is due to be sent to she audit office, the paid list should still be sent, and the money-orders should be forwarded on receipt, a note explaining the reason for their absence being submitted at the same time to the audit office.

20. On receipt of the acknowledgments duly signed, the money-order clerk will examine and compare them with the original list or lists already in his possession, and with the duplicate presented to him along with the acknowledgments; and, if all are found correct, the postmaster will sign each duplicate list and return it to the Collectorate official

who brought back the documents to the post office.

21. The money-order clerk should be particularly careful to see that he receives from the Collectorate an acknowledgment for every money-order, except when a note has been made on the duplicate list Acknowledgments for money-orders. against any order showing that it was not for Land Revenue, Road, or Public Works cess, or Zamindari Dák cess. The money-order clerk will also see that every acknowledgment which he receives is in acknowledgment of the full amount of the money-order to which it appertains, and that the date of credit entered on each acknowledgment agrees with the date of credit entered on each acknowledgment agrees with the date of payment of the money-order.

22. Before each duplicate list is returned to the Collectorate, the money-order clerk Comparison of the duplicate list with they are exactly alike, any remarks recorded in the one list (either in the Collectorate or by the money-order clerk, or the postmaster) being copied in the other list.

23. It will be the duttr of the money-order

23. It will be the duty of the money-order clerk to report to the postmaster if the signed acknowledgments and the duplicate list or lists are not returned to him at latest by 4 P.M. on the day following that on which the Treasury voucher was sent to the Collectorate. On receipt of such a report, the postmaster should at once bring the matter to the notice of the Treasury Officer. Any serious or off-repeated delay in the return of the acknowledgments should be reported to the Head of the Circle. The money-order clerk should report to the postmaster every case in which revenue money-orders are not received. should report to the postmaster every case in which revenue money-orders are not received back on the same day that they are sent to the Treasury, and if it is found that this happens frequently, the postmaster should bring the matter to the notice of higher authority.

24. The money-order clerk will report to the postmaster every case in which the coupon (chalan) of a revenue money-order received by him is blank or is imperfectly filled up, and each such case should be reported by the postmaster to the Superintendent of the Division in which the Office of Large is situated.

Division, in which the Office of Issue is situated.

25. On the 5th of every month, the money-order clerk will prepare a return (Form \$\frac{5}{8.N.o.}\$) of all revenue money-orders received during the last month, and this return will be submitted by the Return of all revenue money-orders received during previous month. postmaster to the Head of the Circle.

Section B .- Procedure to be followed in the Collectorate.

26. On receipt in the Treasury of the money-orders with the duplicate copy of the list or lists in which they are entered and the Treasury voucher, the Accountant will check and compare the documents. If there is any error, he will return all the documents to the Post-office with a note of the error or errors. This error note will be signed by the Accountant and the Tauzi Navis of the Department concerned; when the documents are correct, the Accountant will at once cut off the portion of each money-order containing the coupon and acknowledgment, sign and date the money-orders (as payee), and return the paid money-orders to the Postman. In the case of money-orders for amounts exceeding Rs. 500, the Treasury officer also shall sign and date the money-orders as payee. The Accountant will retain the lower portion of each money-order, including the coupon and acknowledgment, the duplicate list or lists of money-orders (Form **\frac{2}{2,2,2,0}\$) and the Treasury voucher. No money-order received from the Post Office may be refused.

The acceptance of the revenue money-order after kest day is to be treated in the

The acceptance of the revenue money-order after kist day is to be treated in the

same manner as the receipt of a personal payment of revenue after kist day, and the sum will be kept in revenue deposit till the Collector has passed orders accepting the payment.

27. The Treasury Officer will, on the same day, charge off the amount represented by the Treasury voucher (A/c 12) by transfer, and credit the amounts of the several money-orders as shown in the list

or lists and on the acknowledgments to the appropriate departments.

If the estate on account of which a remittance of land revenue has been received is situated in another district, the remittance should be credited in the usual way, and the Collector to whom the money-order should have been addressed should be advised of the credit, according to the procedure in Chapter II, section XII, rule 2, of the Board's Tauzi Manual, 1899. The remitter should also be advised of his error by a note on the money-order acknowledgment. In the case of Road and Public Works cess and Zawindari Dak cess, the amount thus erroneously remitted should be transmitted by remittance transfer receipts to the Collector of the district to which the cess properly belongs, and the remitter of the money-order should be advised of his error, as in the case of land revenue.

If it should be found that a revenue money-order has been erroneously issued for a remittance of some due other than Land Revenue, Road or Public Works cess or Zanindari Dák cess, the Treasury officer should make a note to that effect against the entry of the money-order on the duplicate list, and forward the coupon and acknowledgment with an advice list (Form 4, G.M.O.) to the appropriate department for disposal under the rules in Part III of the rules for Government money-orders other than revenue money-

28. If it should be found that any money order represents a remittance apparently not due to or intended for Government or any department or authority having an account in the Treasury, or that the Money-orders which cannot at once be credited in the Tressury accounts.

amount of the money-order cannot for this or any other reason be credited at once in the Treasury accounts, the amount should be disposed of according to the standing rules and practice of the Account Department, or be made over in cash to the officer who would have been entrusted with it had the money been paid in eash instead of by money-order, or had it been sent as eash in an ordinary or registered letter.

29. The Treasury officer will be responsible that the total of the amounts credited to Responsibility of Treasury officer. Responsibility of Treasury officer. under rule 28 is equal to the amount of the Treasury voucher received from the post-office, and debited to the Postal Department

30. The next business to be done in the Collectorate will be a rough examination of the acknowledgments and coupons to see that the necessary particulars of remittance are given in each case. This examination should be made by the Tauzi Navises of the Land Revenue and Cess Offices, and by the Certificate Department, if a certificate has issued on account of Road and Public Works cess. If the amounts due on account of any cess, interest, penalties, and expenses are wrongly distributed by the remitter in the money-order, the Land Revenue or the Cess Department will correct the distribution. It is not necessary at this stage that the money-orders should be sent to, or examined by, the Zamindari Dâk office, even when they contain remittances of zamindari dâk cess. The fact that the amount remitted is less or more than is due is immaterial. If more than is due is remitted, the excess will be treated as a payment in advance; if less than is due is remitted, it will be treated as a paymout on account.

If owing to omissions or errors in the particulars of remittance, there is any uncertainty as to whether a remittance can be correctly credited according to the intentions of the remitter, a note should be made across the acknowledgment in ed ink, stating how the remittance has been credited or what further particulars are required, and in the latter the remitter should be asked to send the required information comediately by letter. If a remittance of land resume by money-order is received in the Treasury after the sunger of least days a party after the sunger of kist day, a note should similarly be made across the acknowledgment in red ink to the effect that the payment is "too late for kist day." *

Documents to be returned to the post-office and to be retained in the Collec-torate.

31. Immediately after the examination prescribed in the preceding rule, the acknowledgments to be returned to the postand to be retained in the Collection of the duplicate list or lists to the post-office. The date on the acknowledgments must be the date of receipt of the Treasury voucher by which the money-orders were paid.

^{*} It is to be understood that the date of receipt of the money-order in the Treasury is the date of the Treasury reacher by which it is paid, and not necessarily the date on which the acknowledgment is examined, signed or retorned.

The Treasury Officer will be responsible that the acknowledgments and duplicate list or lists are returned to the Post-office at latest by 4 P.M. on the day following that on which they were received in the Collectorate. The chalans will be retained in the Collectorate.

32. After the return of the acknowledgments to the Post-office, the chalans of Form RMO. should be sent to the Land Revenue Tauzi Office, and those of Form RMO. to the Cess Tauzi Office, so that the remittances may be entered in the departmental registers. The chalans should be initialled by a responsible officer of each department, and then be returned to the Collectorate. On each coupon is to be noted by the muharrir the date when he posted in the tauzi ledger the amount referred to in the coupon. The muharrir is to sign such note.

33. When the duplicate list or lists, with the Postmaster's acknowledgment for the documents returned to him, are received back from the Post-Duplicate list or lists to be filed. office they should be attached to the chalans and filed in the Collectorate.

PART IV.

DISPOSAL OF ACKNOWLEDGMENTS.

34. The Acknowledgments appertaining to Revenue Money-orders received from the Collectorate will be sorted separately for each Office of Issue, and enclosed in envelopes (Form R.M.O) addressed to the Postmasters of those offices. The total number of acknowledgments closed in each envelope will be the registered number assigned to that envelope. The acknowledgments for orders issued at Branch office are not to be returned to the Branch office direct, but through the Account office.

35. The money orders issued by each office will then be bracketed together in the remarks column of the original copy of the list prepared in Form E.M.o., and the registered number of the envelope enclos-Envelopes containing Acknowledging the corresponding acknowledgments will be noted against each bracket. The closed envelopes will then be made over to the registration clerk for despatch, his receipt for the total number of envelopes 'numbered as above' being taken at the foot of the list.

36. On arrival in the Office of Issue, the envelopes will be opened and the acknowledgments contained in each envelope will be checked with the registered number of the money-order. The envelopes will then be destroyed. The acknowledgments will then be Disposal of envelopes and acknowledgstamped with the Money-order stamp, and be sorted for distribution to postmen and village postmen. The numbers of all acknowledgments given to each postman and village postman will be detailed separately by the Money-order Clerk, Sub or Branch Postmaster in the postman's book or the village postman's register, the entries being repeated as often as the acknowledgments are given out for delivery.

The postman or village postman will obtain the remitter's signature or mark when delivering each acknowledgment in the postman's book or Delivery of acknowledgments. the village postman's register.

38. Acknowledgments which cannot be delivered in consequence of the remitter not being found will be returned by the postman, or village postman to the Money-order clerk, Sub-Postmaster, or Branch Non-delivery and disposal of ack-Postmaster as the case may be, who will sign for them in the Postman's Book or Village Postman's Register.

39. Undelivered acknowledgments will be kept in the Office of Issue (if a Head Office) for a period of 12 months, and, if still unclaimed, will be Undelivered asknowledgments. destroyed.

40. In Sub-Offices and Branch Offices undelivered acknowledgments will be retained for a period of three months, and, if still unclaimed, will be forwarded to the Head Office or a period of three months, and, if still undarmed, will be kept in the Head Office for a further period of nine months, and, if then still on hand, will be destroyed.

41. Postmasters, Sub-Postmasters, and Branch Postmasters of the Offices of Issue

will be responsible that acknowledgments are delivered to remitters of Revenue Money Orders without any unnecessary delay and free delivery of acknowledgments should be made from time to time from zamindars who may call at the Post Office to have Revenue Money-orders issued.

42. Remitters of Revenue Money-orders should be advised to examine carefully their Remitter to examine acknowledge acknowledge be any red ink note by the Collectorate calling for further particulars, or indicating a doubt as to whether a remittance has been correctly credited according to the intentions of the remitter.

All will be admitted to the Day classes who have passed the School Final or the Entrance Examination or who are able to satisfy the Education Department by passing a translation. simple preliminary test examination.

There is no age limit. The fee for the Day classes is Rs. 3 a month.

Offg. Principal, Presidency College.

PRESIDENCY COLLEGE, CALCUTTA, the 8th March 1905.

NOTICE.

In connection with the Commercial classes in the Presidency College, Professor H. M. Percival will deliver a course of about 32 lectures in the evening on the Outlines of Political Economy.

The course will begin on Tuesday, the 7th March, at 6-30 P.M., and will be continued on redays and Fridays at the same hour until further notice. The first lecture will be Tuesdays and Fridays at the same hour until further notice. open to the public. The subject will be treated popularly.

The fee for the whole course will be Rs. 5, payable in advance.

Tickets may be obtained from the College office between 11 A.M. and 4 P.M. on week days.

CALCUTTA, The 20th March 1905. P. K. RAY,

Offg. Principal, Presidency College.

CIVIL ENGINEERING COLLEGE, SIBPUR. ENGINEER DEPARTMENT.

Session 1905-1906.

CANDIDATES for admission to the Engineer Department should apply to the Principal in the prescribed form on or before the 15th May 1905. Each application must be accompanied by a registration fee of Re. 1.

The session begins on Monday, the 5th June 1905.
Candidates must furnish proof that they have passed one of the following tests:—

(1) The B.A. Examination in the B course in Physics and Chemistry of the Calcutta University. The candidate's age must be under 23 years.

The F.A. Examination of the Calcutta and Madras Universities.

(3) The Intermediate Examination of Allahabad and Punjab Universities.
(4) The Intermediate Examination for the degree of B.A. of Bombay University.
(5) The High School Examination for Europeans and Eurasians.

The candidate's age in (2), (3), (4) and (5) must be under 21 years.

In selecting candidates who have passed the F.A. (all other things being equal), preference will be given to those who have passed in Sanitary Science in addition to the ordinary subjects of the F.A. Examination.

The maximum analysis to be admitted in limited to 40. The resition in the University

The maximum number to be admitted is limited to 40. The position in the University examination and the age of the candidate will be taken into consideration when selection is

made, and such selection will be made by the Principal.

The taition fee for students to the Engineer class is Rs. 10 a month for each month of the year, variation included.

Ten scholarships will be awarded to students entering the Engineer Department not being already holders of junior or senior scholarships. Two of these will be reserved for

Europeans and Eurasians. Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour and

Form of application for admission and any further particulars will be supplied upon

application.

CIVIL ENGINEERING COLLEGE, SIBPUR.

APPRENTICE DEPARTMENT.

SESSION 1905-1906.

CANDIDATES for admission to the Apprentice Department should apply to the Principal in the prescribed form on or before the 6th May 1905. Each application must be accompanied by a registration fee of Re. 1.

The session begins on Monday, the 5th June 1905. Candidates must furnish proof that they have passed one of the following tests:—

1) Standard VII or Middle School Examination of the Code of European Schools.

(2) University Entrance Examination.

The candidate's age must be at least fifteen and not more than seventeen years.

There are forty-five vacancies for natives and nine for Europeans and Eurasians. The

selection of candidates for admission will be made by the Principal.

There is one vacancy on the free list for Christian Apprentices in June next and there are three on the reduced fee list. For natives there are five vacancies on the reduced fee list, and six more will become vacant during the month of June. Election to these lists will be made by the Board of Visitors. Forms to be filled up for the consideration of the will be made by the Board of Visitors. Board can be had on application to the Principal.

Every applicant before admission to the College will be examined by the College

Surgeon as to his physical strength, fitness for manual labour and eyesight.

Before an applicant is admitted to the College his parent or guardian must sign an agreement in the prescribed form.

All applications from Christian candidates for admission to the free or reduced fee lists must reach the Principal not later than 6th May, so as to enable the elections to be made by the Board of Visitors before the opening of the session.

The vacancies on the native list will be filled up after the opening of the session from

those apprentices who have joined the College after admission. Forms of application for admission and further particulars will be supplied on application.

SIBPUR. The 8th April 1905.

A. MACDONELL, Offg. Principal, Civil Engineering College, Sibpur.

No. 2939B.

NOTIFICATION.

CUSTOMS.

THE HON'BLE MR. K. G. GUPTA, 1.C.S.

Dated Calcutta, the 18th April 1905.

In supersession of the Notification, dated the 3rd January 1893, published in Part I, page 71, of the Calcatta Gazette of the 25th idem, it is hereby notified to all whom it may concern, under the provisions of secs. 9 and 72 of the Sea Customs Act, 1878, that the Collector of Customs, Chittagong, is ordinarily prohibited from granting permission to work cargo in sea-going vessels on Sundays. He shall, however, give written permission in the following cases:—

- When the application to work is supported by a declaration in a prescribed form signed by the owner or agent of the vessel, certifying that the permission is absolutely necessary to enable the vessel to leave the port owing to the state of the river or to the condition of the weather.
- II. When the application is made on grounds of special urgency, provided the Collector of Customs is satisfied that such grounds are sufficient.
 III. When a vessel is a mail or regular steamer which calls at the port at fixed
- intervals.
- When the vessel is a native brig on which no European is employed.

 When the application is made to discharge or load live-stock, ship's stores, ballast or coal for the ship's use.
- These orders do not modify the existing orders under which a fee of Rs. 6 is charged for the services of the Inspector and Preventive Officer, or the orders contained in the Resolution of Government, in the Financial Department, dated the 24th September 1888, under which a fee of Rs. 100 is payable on Christmas Day, Good Friday, the King's Birthday and the 1st of January, in addition to the ordinary fee for the Inspector and the Preventive Officer.

By order of the Board of Revenue, L. P.,

H. F. SAMMAN,

Offg. Secretary,

H. W. C. CARNDUFF, Offg. Secy. to the Govt. of Bengal.

THE following order is republished for general information.

H. W. C. CARNDUFF, Offg. Secy. to the Govt. of Bengal.

GOVERNMENT OF MADRAS.

JUDICIAL DEPARTMENT.

READ-again the following papers:-

G. O. Nos. 1451, 1452, Judicial, dated 26th September 1904.
 No. 12, Judicial, dated 4th January 1905.

READ-also the following paper :-

From A. BUTTERWORTH, Esq., I.C.S., Political Agent for Pudukkottai, to the Chief Secretary to Government, dated Trichinopoly, 10th March 1905, Dis. No. 97.

With reference to paragraph 2 of G.O. No. 12, Judicial, dated 4th January 1905, I have the honour to submit herewith a copy of the notification issued by the Pudukkottai Darbar declaring that the decrees of all Civil Courts in British India may be executed in the Pudukkottai State as if they had been made in the State.

ENCLOSURE.

Notification.

Under section 229-B. of the Code of Civil Procedure (Act XIV of 1882), His Highness is pleased to declare that the decrees of all the Civil Courts in British India may be executed in this State as if they had been made by a Court in this State. Order-No. 457, Judicial, dated 22nd March 1905.

Recorded.

The notification will be republished in the Fort St. George Gazette. 3. The Political Agent, Pudukkottai, will be requested to communicate to the Darbar the thanks of the Government for the promptness of the action taken.

4. A copy of the notification will be forwarded to the Government of India for information.

G. S. FORBES, Chief Secretary.

subdivision, is appointed to hold charge of the Puri Division, in addition to his present

duties during the absence of Mr. Monteath on privilege leave.

No. 537T.R.—The 3rd May 1905.—Whereas a survey and the preparation of a record-of-rights are calculated to settle serious disputes existing between the landlord and the tenants of mauzas Shambhudia, Pakutia, Ghusuria, Deldarpur, Armasuka, accretion to mauza Agsimulia, including mauza Singuli, appertaining to tauzi Nos. 1739, 1740, 1829, 1830 and mauza Hizalia, appertaining to tauzi No. 1835, in the district of Pabna :-

In exercise of the powers conferred upon him by section 101 (2) (b) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.C.) of 1898, the Lieutenant-Governor of Bengal is pleased to direct that a survey shall be made and a record-of-rights prepared in respect of all lands situated within the boundaries of the said mauzas.

The particulars to be recorded in the survey and record of rights shall be the following:-

(a) the name of each tenant or occupant;

(b) the class to which each tenant belongs, that is to say, whether he is a tenureholder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat or under-raiyat; and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure;

(c) the situation, quantity and one or more of the boundaries of the land held by

each tenant or occupier;

(d) the name of each tenant's landlord; (e) the money-rent payable at the time the record-of-rights is being prepared; or if a produce-rent, the fact that produce-rent is paid, and the customary terms according to which such rent is paid;

(f) the mode in which that rent has been fixed-whether by contract, by order of a

Court, or otherwise;

(g) if the rent is a gradually increasing rent, the time at which, and the steps by which, it increases;

(h) the special conditions and incidents, if any, of the tenancy;

if the land is claimed to be held rent-free—whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and, if so entitled, under what authority;

(i) the name of each proprietor, including rent-free owner, with the character and extent of his interest, and the situation, quantity, and one or more of the boundaries of the proprietor's private lands as defined in Chapter XI of the

(k) the customs of the villages regulating the methods of irrigation, and the duties and rights of both landlords and tenants with respect to the use and maintenance

of the means of irrigation.

No. 538 T.R.—The 3rd May 1905.—Whereas a survey is being made and a record-ofrights is being prepared in respect of lands in the district of Bhagalpur (North):

In exercise of the powers conferred upon him by section 101 (1) of the Bengal Tenancy Act, VIII of 1885, as amended by Act III (B.C.) of 1898, and with the previous sanction of Act, VIII of 1885, as amended by Act III (B.C.) of 1898, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to direct, in continuation of Government Notifications No. 255L.R., dated the 19th January 1903 (as modified by Government Notification No. 1116L.R., dated the 27th February 1903, published at page 285, Government Notification No. 1116L.R., dated the 27th February 1903, published at page 285, Part I, of the Calcutta Gazette of the 4th March 1903) and No. 1925L.R., dated the 6th April 1903, published at pages 43-44 and 420, Part I, of the Calcutta Gazette of the 21st January 1903, published at pages 43-44 and 420, Part I, of the Calcutta Gazette of the 21st January 1903, respectively, that a survey shall be made and a record-of-rights prepared and 8th April 1903, respectively, that a survey shall be made and a record-of-rights prepared in respect of the lands referred to in the list herein below appended, in the district of Bhagalin respect of the lands referred to in the list herein below appended, in the district of Bhagalin respect of the lands referred to in the list herein below appended, in the district of Bhagalin respectively. in respect of the lands referred to in the list herein below appended, in the district of Bhagalpur, which were excluded from the survey and settlement operations ordered in the Government Notifications referred to above as being comprised within the Srinagar-Banali Raj estates previously surveyed and settled and which are now found to belong to other properties. properties.

The particulars to be recorded in the survey and record-of-rights shall be the

following:

(b) the class to which each tenant belongs, that is to say, whether he is a tenareholder, raiyat holding at fixed rates, settled raiyat, occupancy raiyat, non-occupancy raiyat, or under-raiyat; and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement the continuance of his tenure;

Yearly Examination of Candidates for fourth grade of Accountants.

THE yearly examination of candidates for fourth grade of Accountants, Public Works Department, will be held at the Civil Engineering College, Sibpur, on Monday and Tuesday, the ord and 4th July 1905, at 10-30 A.M., both days :-

SUBJECTS

	Full marks.	pass marks.
Writing (neatness, clearness, and rapidity) Dictation (spelling, punctuation, etc.) Arithmetic (the whole) Mensuration (a) the whole Book-keeping (b) mercantile	100 100 240 60 100	50 50 160 30 50
Total	600	

Minimum required in all papers collectively, 400.

collectively, 400.

(a) Tedhunter's Mensuration for Beginners.

(b) "Book-keeping," by Ball and Hamilton.

"Book-keeping," by double and single entry, by W. Inglis (Chambers' Educational Course).

1. The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in July. The examination will be conducted either at the College, or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam, and Burma only. The examination will be ipso facto vitiated, if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements, in regard to the place and hour of examination, with the may make his own arrangements, in regard to the place and hour of examination, with the

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ may be allowed to compete in the examination, even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable

establishment on State Railways.

establishment on State Railways.

2. The candidate should apply to an Examiner of Public Works Accounts, not later than 30 days previous to the date fixed for the examination, and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner. through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the

Engineer or Accounts Branch, but none will be returned :-

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior, under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

(2) Certificate of age (baptismal or of birth) not required, if the candidate is already

in permanent Government employ.

(3) Certificate that the application is in the candidate's handwriting.

Note.—A candidate already in Government service should, in like manner, submit his application, through his immediate official superior, to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal, for registration, the names of the accepted candidates. The names of these candidates should be entered in a state of the second dates. in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later then 15 days after the dates fixed in paragraph 2 for the submission of applications. not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.
4. Each examination is complete in itself. A candidate who has fail Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh fee and certificates.

5. If from any cause a candidate fails to appear for the examination, the fee paid will

6. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts, in the prevince or railway under whom they may desire to be employed.

7. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons who are already employed in the Department.

8. The Civil Engineering College acts solely as an examination body in reference to admission to the fourth grade of Accountants, Public Works Department.

9. Candidates for the fourth grade Accountantship examination, who are not Government servants and over 25 years of age, are allowed to appear at the examination, at the Sibpur College centre only, but, even if successful, they are debarred from employment in the service of Government, and their names will be excluded from the list of passed candidates which is furnished to the Accountant General. Public Works Department. which is furnished to the Accountant General, Public Works Department.

10. Candidates over 25 years of age should apply in writing to the Principal of the Civil Engineering College, not later than 30 days previous to the examination; the application to be accompanied by the fee of Rs. 10.

SIBPUR, The 5th May 1905.

A. MACDONELL. Offg. Principal, Civil Engineering College.

DACCA SCHOOL OF ENGINEERING.

1. Candidates for admission into the Overseer Branch of the Dacca School of Engineering are to submit their applications to the Principal, Dacca College, through their bona fide guardians on or before the 27th May next.

2. Candidates for admission must have passed the University Entrance Examination or standard VII of the Code for European Schools.

 The selected candidates are to join on the second Monday in 4.
 The following particulars must be stated in the application: The selected candidates are to join on the second Monday in June.

(a) Name, address and occupation of father or guardian.

(b) Race and Religion.

(c) Age of the candidate.

5. Each candidate must produce a medical certificate of good and sound health from an Assistant Surgeon at the time of admission and a certificate of good moral character from the Head of the institution from which he comes.

DACCA COLLEGE,

COLIN H. BROWNING, M.A.,

The 17th April 1905.

Principal.

V. H. JACKSON,

Asst. Director of Public Instruction, Bengal, in charge.

RULES OF THE GOVERNMENT CUTTACK SURVEY SCHOOL.

I .- The school is under the general supervision of the Principal of the Ravenshaw

College.

II.—The number of admissions to the first year class of each year is limited to 50, of whom only 20 can be other than Uriyas or Bengalis domiciled in Orissa; but should the number of eligible Uriya (or domiciled Bengali) candidates fall below 30, the vacancies thus occurring can be given to non-Uriya candidates.

III.—The session usually begins in the last week of June. All applications for admission should be made to the Principal of the Ravenshaw College on or before the 15th June previous to the commencement of the session, and should furnish the following

particulars : -

(a) Name, address and occupation of father and guardian.

(b) Race and religion.

(c) Age of the candidate (which must not exceed 20 years).

IV.—Candidates for admission must submit satisfactory evidence that they have read up to the first class of a High English School or, in the case of Uriya (or domiciled Bengali) candidates, have at least passed the Middle English Examination or have passed the annual examination of the 5th class of a High School.

V.—Each candidate must produce at the time of admission a certificate showing good moral character, and also a medical certificate of good and sound health from an Assistant

Surgeon.

VI.—No student who fails to pass the final examination of a Survey School or does not bring a transfer certificate under the ordinary transfer rules will be permitted to join the second year class after the 31st July.

VII.—The admission fee is rupee one and the monthly fee rupee one, but Government

scholars receive free tuition.

VIII.—There are six Government scholarships, which are awarded each year to the Uriya students and domiciled Bengalis permanently settled in Orissa only on the results of the annual examination of the first year class.

IX.—The course of study in the school extends over two years, and the students are

required to attend at least 75 per cent, of the working days.

X.—The successful students at the annual examination of the first year class are usually promoted to the second year class; but those who wish may, at their option, leave the school with an amin certificate from the Head-master of the school. The successful students of the final survey standard examination receive certificates from the Director of Public Instruction, Bengal.

The curriculum of each year is detailed below:-

FIRST YEAR CLASS.

Mathematics.

Arithmetic, whole; Algebra up to fractions; Geometry, Books I, II and III. Mensuration-Lines and Surfaces.

Drawing.

Practical Geometry; Geometrical figures; Construction of scales-simple and diagonal; Map-drawing; Plotting; and Conventional signs.

DARJEELING,

The 29th April 1905.

V. H. JACKSON,

Assistant Director of Public Instruction, Rangal, in charge.

BIHAR SCHOOL OF ENGINEERING.

Prospectus for Admission.

THIS School is under the management of the Principal of the Patna College, assisted by a Board of Visitors. It owes its origin to a fund raised by residents of Bihar to commemorate the visit to India of His Royal Highness the Prince of Wales. The object of the fund was the promotion of technical instruction in Bihar. The School was formally opened on the

the visit to India of His Royal Highness the Prince of Wales. The object of the fund was the promotion of technical instruction in Bihar. The School was formally opened on the 11th July 1896 by His Honour the Lieutenant-Governor of Bengal.

2. The number of students admitted to the first-year class of each year will be limited to 60, of whom only 15 can be other than Biharis by race (viz., natives of the United Provinces, Central Provinces or Bengalis); but should the number of suitable applicants who are Biharis by race be insufficient to fill up the 45 vacancies, then the vacancies thus occurring can be given to those applicants who are natives of the United Provinces, Central Provinces, or Bengalis domiciled in Bihar or non-domiciled Bengalis Provinces, or Bengalis domiciled in Bihar or non-domiciled Bengalis.

As far as accommodation is available, students who have passed the final B class examination will be admitted to the second-year class, provided they are not over 21 years of age, preference, again, being given to Biharis and domiciled Bengalis.

3. The School, as at present constituted, is chiefly engaged in training students for appointment as Sub-Overseers and Overseers.

The curriculum includes-

A sound study of Elementary Mathematics.

(2) Careful training in Survey work.(3) Drawing, both Free-hand and Engineering. (4) Elements of road-making and the construction of simple buildings.
(5) Workshop practice, with hand tools and with machinery.

Students are prepared for the Overseer certificate of the Public Works Department. The necessary additional buildings have now been completed; and Government has agreed to reserve one appointment annually for a qualified student from this School, who must be a

Bihari by race.

4. The next session will commence on 3rd July 1905.

5 In the Overseer Department, which corresponds to the Apprentice Department of the Shibpur College, the monthly fee is Re. 1-8, except for non-domiciled Bengalis, who shall pay Rs. 3. All scholarship-holders, however, receive free tuition. Government scholarships of the value of Rs. 7 a month, tenable for one year, are awarded each year on the results of the annual examinations, eight being tenable in the second-year class, six in the results of the annual examinations, eight being tenable in the scholarships attached to the third-year class, and six in the fourth-year class. Of the scholarships attached to the School, 75 per cent. of them are to be reserved for those students who are Biharis by race. The teaching is in English.

6. Candidates for admission to the Overseer Department must be under 20 years of age, and must have passed one of the tests mentioned below:—

(1) The Entrance examination of an Indian University in English and Mathematics.

(2) Standard VII of the Code of European Schools.

(3) Students who have not passed either of these tests, and who are otherwise eligible, will have to pass an examination in English and Mathematics (of about the same standard as the Entrance examination of the Calcutta University in these subjects) to be held by the Principal of the Patna College on the 5th and 6th July, respectively (from 6 A.M. to 9 A.M. each day).

- 7. Candidates for admission must apply to the Principal not later than the 30th June. Their application must give the following particulars:—
 - (a) Name, address, and occupation of father or guardian.
 - (b) Race and religion, and evidence to show that he is either a Bihari or a native of the United Provinces or Central Provinces or a domiciled Bengali or a non-domiciled Bengali.
 - (c) A certificate of good moral character.
 - (a) An attested certificate of age (showing that he is under 20 years of age).
 (e) A medical certificate showing him to be fit for employment in the public service.
 - (e) A medical certificate showing him to be fit for employment in the public service.
 (f) A certificate of having passed either of the first two of the three tests mentioned above, failing which the application will be kept pending till a certifiate showing that the candidate has passed the third test is given to the Principal.
- 8. There is also an Amin class, admission to which may be obtained by students who do not know English. In the Amin class the course of study is for one year, and the monthly fee is Re. 1. An Amin student is taught Elementary Surveying with a corresponding amount of Mathematics and of Geometrical Drawing. He will not be admitted to the Workshop. A student in the first-year class of the Overseer Department who fails to pass the examination for promotion to the second-year class, but who has shown an adequate knowledge of Elementary Surveying and the other subjects taught in the Amin class may, at his option, leave the School with an Amin certificate.

Candidates for Amin class who have not passed the Middle English or Middle Vernacular examination will be examined at the School on the 7th July; candidates failing at this examination will not be admitted.

- 9. Except in very special cases, a student will not be admitted to the Amin class for the session that commences from 3rd July 1905, unless application for admission is made before 30th June 1905.
- 10. Every candidate for admission to the School must bring a certificate of good character from the Head of the institution from which he has come.
- 11. All candidates for admission to the School should present themselves personally at the School on the 3rd July.

BANKIPORE.

H. R. JAMES,

The 14th February 1905.

Offg. Principal, Patna College.

Note.—There is a hostel in connection with the School which will be opened in July 1905.

NOTICE.

COMMERCIAL CLASSES IN THE PRESIDENCY COLLEGE.

Day classes in the following subjects will be opened in the College on the 25th June 1905:—

- 1. English (modern), especially English correspondence, including Commercial correspondence, letter-drafting and précis-writing.
 - 2. Arithmetic, including Commercial and Mental Arithmetic.
 - 3. Book-keeping, Short-hand and Type-writing.
 - 4. Commercial History and Geography.
- 5. Bengali, especially Commercial correspondence, letter-writing, précis-writing and translation.

All will be admitted to the Day classes who have passed the School Final or the Entrance Examination or who are able to satisfy the Education Department by passing a simple preliminary test examination.

There is no age limit.

The fee for the Day classes is Rs. 3 a month.

P. K. BAY,

Offg. Principal, Presidency College.

PRESIDENCY COLLEGE, CALCUTTA, the 8th March 1905.

Yearly Examination of Candidates for fourth grade of Accountants.

THE yearly examination of candidates for fourth grade of Accountants, Public Works Department, will be held at the Civil Engineering College, Sibpur, on Monday and Tuesday, the 3rd and 4th July 1905, at 10-30 A.M., both days :-

Minimum required in all papers collectively, 400.

(a) Tedhunter's Mensuration for Beginners.

(b) "Book-keeping," by Ball and Hamilton.

"Book-keeping," by double and single entry, by W. Inglis (Chambers' Educational Course).

1. The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in July. The examination will be conducted either at the College, or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam, and Burma only. The examination will be ipso facto vitiated, if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination was a bis own arrangements, in regard to the place and hour of examination, with the may make his own arrangements, in regard to the place and hour of examination, with the candidates

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ may be allowed to compete in the examination, even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the propositionable. will be eligible only for appointment to the non-pensionable

establishment on State Railways.

The candidate should apply to an Examiner of Public Works Accounts, not later than 30 days previous to the date fixed for the examination, and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the

Engineer or Accounts Branch, but none will be returned:

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior, under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

(2) Certificate of age (baptismal or of birth) not required, if the candidate is already

in permanent Government employ.

(3) Certificate that the application is in the candidate's handwriting.

NOTE.—A candidate already in Government service should, in like manner, submit his application, through his immediate official superior, to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal, for registration, the names of the accepted candidates. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

Examination papers that are issued for examination need not be returned. 3. Examination papers that are issued for examination need not be as failed in an 4. Each examination is complete in itself. A candidate who has failed in an 4. Each examination is complete in itself. A candidate who has failed in an 4. examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh fee and certificates.

If from any cause a candidate fails to appear for the examination, the fee paid will

6. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts, in the province or railway under whom they may desire to be employed.

7. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons who are already employed in the Department.

8. The Civil Engineering College acts solely as an examination body in reference to admission to the fourth grade of Accountants, Public Works Department.

9. Candidates for the fourth grade Accountantship examination, who are not Government servants and over 25 years of age, are allowed to appear at the examination, at the Sibpur College centre only, but, even if successful, they are debarred from employment in the service of Government, and their names will be excluded from the list of passed candidates which is furnished to the Accountant-General, Public Works Department. which is furnished to the Accountant-General, Public Works Department.

10. Candidates over 25 years of age should apply in writing to the Principal of the Civil Engineering College, not later than 30 days previous to the examination; the

application to be accompanied by the fee of Rs. 10.

SIBPUR,

The 5th May 1905.

A. MACDONELL,

Offg. Principal, Civil Engineering College.

R. W. CARLYLE, Offg. Chief Secy. to the Govt. of Bengal.

REVENUE DEPARTMENT.

NOTIFICATIONS.

No. 843T.R.—The 22nd May 1905.—In exercise of the powers conferred by sections 41 and 42 of the Indian Forest Act, VII of 1878, as amended by Act V Jalpaiguri. of 1890, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor of Bengal is pleased to make the following rules to regulate the transit of timber in the Alipur subdivision of the Jalpaiguri district:—

I. Definition.—For the purposes of these rules "timber" means all pieces of sål or sissu,

sawn or in the rough, which are at the same time over twelve inches in girth and five feet in

II. No timber may be transported along the Buxa Alipur, Phalakata Alipur, or Haldibari Alipur Roads or along any other public road or any stream or river leading into Alipur Duar, unless it is covered by a pass issued by one of the officers mentioned in rule III of these rules and specifying. of these rules, and specifying-

(a) the name of the owner of the timber;

(b) the number of pieces of timber, with their dimensions and descriptions;

(c) the mark or marks on the timber; and d) the date up to which the certificate will remain in force.

Passes may be obtained free of charge on application to—

1) the Forest Revenue Station Officer at Rajabhatkhawa;

(2) the Borojhar Range Officer at Chilapata;

(3) the Haldibari Range Officer at Kumargram; or (4) the Officer in charge of the Buxa Forest Division.

Any of the said officers on receiving an application for a pass may refuse to issue a pass till he has examined the timber for which it is required and has satisfied himself that the Forest Department has no claim, or no further claim, to any royalty or fees on account of the

IV. Every person taking out such a pass shall, unless specially exempted in writing by the officer in charge of the Buxa Forest Division, convey the timber mentioned in the pass to Alipur Duar within the period for which the pass is issued, and shall, on his arrival in Alipur Duar, present the timber for examination at the Alipur Duar Forest Checking Station, and shall deliver up his pass to the officer in charge of that checking station.

V. Perelty Any passon interacting any provision of these miles shall be.

V. Penalty.—Any person infringing any provision of these rules shall be punished with simple imprisonment for a term which may extend to one month, or with fine which

may extend to Rs. 500, or with both. No. 743T.R.—The 14th May 1905.—Maulvi Shamsuddin Haidar, Deputy Collector, is appointed to discharge the functions of a Collector, under sections appointed to descharge the functions of a Collector, under sections 40, 69 and 70 of the Bengal Tenancy Act, VIII of 1885, in the

No. 821T.R.—The 20th May 1905.—Under the authority vested in him by section 2 (2) of the Sonthal Parganas Rent Regulation, II of 1886, the Sonthal Parganas. Lieutenant-Governor is pleased to vest Mr. H. Ll. L. Allanson, Control Parganas with the powers of Japunty Commissioner district of Gaya. LCs., Settlement Officer of the Sonthal Parganas, with the powers of for the purposes of section 25 of the said Regulation.

NOTIFICATION.

No. 846T.R., dated 22nd May 1905.—The following rules of the Postal Department relating to rent money-orders are published for general information :-

> R. W. CARLYLE, Offg. Chief Secy. to the Govt. of Bengal.

RULES RELATING TO RENT MONEY-ORDERS.

PART I.

The form of rent money-order.

- 1. The rent money-order form is divided into three parts,
 - (a) The money-order.

 - (b) The acknowledgement. (This is the tenant's receipt.)
 (c) The coupon. (This is the counterfoil of landlord's portion of the receipt.)
- 2. Part (a) requires no description, as it is exactly like the corresponding portion of the ordinary inland money-order form Part (b) is much larger than the acknowledgement of an ordinary money-order form. On one side of this part are printed headings to provide for the entry of full particulars of the remittance, and on the other side are spaces for the name and address of the remitter. Part (c) is the same size as the acknowledgement, and contains the same headings as part (d). On the back of part (e) are special instructions relating to rent money-orders.

This form is to be used for rent money-orders only and

for no other purpose.

4. Forms of rent money-order should be freely distributed among the rent-paying classes, and every facility should be given to tenants to obtain these forms.

5. Every postmaster, sub-postmaster and branch postmaster will be personally responsible that a sufficient supply of rent money-order forms is always available in his office. In case of emergency, supplies may be obtained by telegraph direct from the stock depôt. Divisional Superintendents and Inspectors, when visiting offices, will see that a sufficient supply of rent money-order forms is available, and mention the fact in their inspection reports.

PART II.

Issue of rent money-orders.

6. Rent money-orders are issued from all head, sub and

Nadia, Murshidabad, Jessen branch post-·Burdwan. offices under the Monghyr. Muzaffarpur. Birbhum. Bankura. Jessore, Khulna. Dacce rules Noakhali. Patna. Cuttack. Midnapor Hooghly. Howrah. Rajsbahi. Dinajpur. which govern the issue of ordinary Dacca. Mymensingh. Faridpur. Cuttack.

in districts in the lower provinces of Bengal in which the Bengal Tenancy Act is in force or any other districts to which the Local Government may, from time to time, extend the provisions of the said Act. The following rules contain additional instructions and are payable which relate specially to the issue of rent money-orders,

Norg.-Rent due on Government land may be remitted by rent money-order.

7. The rule prohibiting the inclusion of pies (fractions of an anna in the amount of an ordinary money-order does not apply to rent money-orders, which may contain any fraction of an anna not less than one pie.

Norm87 he sub items which go to make up the total of the rent money-order may

h and se

- There must be a separate money-order for each tenure or holding. Rent for two tenures or holdings may not be sent by one money-order.
- The office of issue, when requested to do so, will help the remitter to make the requisite entries, and, if necessary, will make entries for him in the form of rent money order; but no fee or any gratification for this service may be demanded or accepted, either directly or indirectly, by any official of the Postal Depart-
- 10. Persons remitting money by rent money-orders should be informed that unless they have received special instructions from the landlord on the subject, they should make the orders payable to the landlord, or to his agent, or to the manager (if one has been appointed), according as the rent has previously been paid to the landlord, or to his agent, or to a manager. The name of the payee must in each case be entered on the money-order. In the absence of special instructions from the landlord, a rent moneyorder should always be made payable at the place at which the tenant has previously paid rent. If the rent has previously been collected in the tenant's village by an agent whose office is not in the village, the money-order should be made payable at the agent's permanent office, or at such other place as the landlord may appoint.
- 11. The office of issue is responsible that no rent money-order is issued of which the coupon and acknowledgement are blank, or are not completely filled up. The post-office has no means of ascertaining the correctness of the information supplied by the remitter; all that is necessary is that the postmaster or moneyorder clerk should see that entries are made against every heading in the coupon and acknowledgement. No rent money-order may be acepted for issue in which there is any erasure or correction in the name or month or year of the kist for which a remittance is made. If the remitter wishes to make any alteration, or tenders a money-order in which there is any alteration or erasure in the entry of the name or month or year of the kist, he must be instructed to fill up a fresh money order. When a rent moneyorder with deficient entries on the coupon, or no entry at all is presented for issue, the issuing postmaster should point out the omissions and help the remitter to the best of his power to supply them.
- 12. The office of issue must also see that no entry is made by the remitter beyond the entries provided for in the form of rent money-order. In some cases the tenant enters the annual rent or the area or the nature of his holding. Such entries are not provided for in the form, and were intentionally not provided for and should not be allowed. If a remitter tenders a rent money-order containing any entry for which the form does not provide, the postmaster or money-order clerk should refuse to accept the form and should ask the remitter to fill up another form. Under rule 9 the postmaster or money-order clerk will, if requested to do so, help the remitter to fill up a fresh form correctly.

 13. The word "rent" should be written before the number

of every rent money-order, and this mode of distinguishing rent money-orders should be adopted whenever the number is entered. The number assigned to a rent money-order by the head office or sub-office of issue will also be entered at the top of the acknowledgement and coupon by the money-order clerk of the head office or the sub-postmaster of the sub-office of issue, as the case

14. One line of the return of rent money-orders issued (Form 2-Rent) should be filled in by every head and sub-office at the close of each day. On the 1st of the following month the return should be totalled and sent to the head-postmaster. The head-postmaster will compile a general return (Form 3-Rent) and submit it to the Postmaster-General not later than the 10th of the month following that to which it relates. Branch offices will not submit any returns, as rent money-orders issued from such offices will be included in the returns of their account offices.

PART III.

Payment of rent money-orders.

15. Before a rent money-order is made over to the postman for payment, the money-order clerk or postmaster of the office of payment will carefully examine the name or month and the year of the kist entered in the coupon and acknowledgement, and satisfy himself they have been clearly entered and bear no marks of erasure or correction.

16. If the examination prescribed in rule 15 shows any discrepancy or alteration in the entries of the kists in the coupon and the acknowledgement, the money-order must not be paid to the payee, but should be returned to the office of issue for repayment to the remitter with the following certificate endorsed in red ink by the postmaster of the office of payment across the acknowledgement:—"Entry of kist defective; returned for payment to remitter—(signature) postmaster." The office of payment will at the same time note the error in the error book, and send a copy of the entry to the Superintendent in whose jurisdiction the office of issue is situated, in order that the official in fault may be punished.

may be punished.

17. On receipt of the copy of the entry in the error book, the Superintendent will take such action as appears to him suitable, having regard to the special instructions to offices of issue in rule II of these rules.

18. A rent money-order should always be paid at the landlord's office at the place of payment entered in the money-order. If the money-order is drawn out as payable to the landlord himself, payment may be made to him or to any person authorized by him in writing to act as his agent, or to receive payment of money-orders in his favour. If the money-order is drawn out as payable to two or more joint landlords, the receipt and acknowledgement must be signed by both or all of the landlords, or by an agent authorized in writing by both or all of the landlords. If the money-order is drawn out as payable to an agent or manager, payment may only be made to the payee named and not to any one else. In making over money to postmen for payment of rent money-orders, the postmaster of the office of payment must observe the limit fixed for the amount to be entrusted at one time to a single postman or village postman. The date stamp of the office of payment should be impressed on the reverse of the acknowledgements just before the money-orders are given to the postmen for payment.

Note. -Rent money-orders in favour of a District Officer, Subdivisional Officer, Cartificate Officer or other Gazatted officer of Government (excepting the Khas Tahsildara, Tahsildara and Managers who are Deputy or Sub-Deputy Collectors), should be paid not in cash but by book transfer under the rules contained in Part II of the "Rules relating to money-orders in favour of Government or local bodies entitled to bank at treasuries or sub-treasuries."

19. In all other respec's rent money-orders will be dealt with in the office of payment exactly like ordinary inland moneyorders.

20. One line of the return of rent money-orders paid and refused (Form 4—Rent) should be filled in by every head and sub-office at the close of each day. On the 1st of the following month the return should be totalled and sent to the head-postmaster. The head-postmaster will compile a general return (Form 5—Rent) and submit it to the Postmaster-General not later than the 10th of the month following that to which it relates. Branch offices will not submit any returns. The rent money-orders paid by branch offices will be included in the returns of their account offices. All rent money-orders paid, whether paid to the original payees in cash or by book transfer or repaid to the remitters, are to be shown in these forms under "Rent money-orders paid."

PART IV.

Disposal of Rent Money-orders not accepted by the payee.

21. If a rent money-order is refused by the payee, the postmaster of the office of payment will certify in red ink across both the coupon and acknowledgement that the payee has declined

to receive payment. This certificate must always be recorded to receive payment. This certificate must always be recorded on refused rent money-orders whether the payee has or has not noted his refusal in writing, and the certificate will be signed by the postmaster. The postman who presented the order with the amount thereof to the payee will write his name and the date of presentation under the postmaster's signature. This certificate will be recorded in the form given below. The refused money-order will then be treated in the usual way and returned to the office of issue (with the coupon stitched to it) for repayment to the remitter. The coupon will be made over to the remitter (tenant) when the amount of the order is repaid to him. The (tenant) when the amount of the order is repaid to him. acknowledgement will, when the office of payment is a head office, be retained in that office. In the case of any other office of payment, the acknowledgement for a refused money-order will be retained by that office until the 1st of the following month, when it will be attached to the return of rent money-orders paid and refused, and be forwarded to the head office. The acknow-ledgements relating to refused money-orders will be filed in monthly bundles in the head office and should be kept in the post-office safe. The postmaster will be responsible for their safe custody for three years from the last day of the agricultural year in which the money-orders were issued. On the expiry of the three years the acknowledgements should be destroyed.

Form of Certificate.

Presented to the payee, but refused on

(Date)

Postman.

(Date)

Postmaster.

22. In all other respects refused rent money-orders will be dealt with exactly like ordinary inland refused money-orders.

PART V.

Disposal of Rent Money-order Acknowledgements.

N.E.—The rules in this part apply to all acknowledgements pertaining to rent ey-orders whether paid in each or by book transfer.

23. The acknowledgements appertaining to paid rent money. orders will, if they are to be delivered from the head office of payment, be made over to the postmen or village postmen at the next delivery and be dealt with as prescribed in rule 25. The acknowledgement portion of rent money-orders paid by sub and branch offices should not be cut off by the actual office of payment, but the paid money-orders should be forwarded with the acknowledgements attached to them to the head office of payment. It is not, therefore, necessary for sub and branch offices to keep the form 'Rent 6' (book of rent money-order acknowledgements returned). This form should be maintained order in head offices and acknowledgements to be delivered from only in head offices, and acknowledgements to be delivered from any office other than the head office of payment should be sent to it in rent-acknowledgement envelopes (Rent 8) duly entered in registered lists.

24. Head and sub-offices should keept he Form 'Rent 7 (book of rent money-order acknowledgements delivered). acknowledgements of all rent money-orders to be delivered from a branch office should be sent by the head office of payment to the account office of the branch office. These acknowledgements should be detailed by the account office in the special book of rent money-order acknowledgements delivered (Form Rent 7), and be forwarded by the account office to the branch office entered on the reverse of the branch office daily account. The branch postmaster will note the numbers of the acknowledgements in the branch office journal, obtain the postman or village postman's signature against each entry, and then hand over the acknowledgements to the postman or village postman for delivery or deliver the acknowledgements himself in the case of offices in which the delivery work is performed by the branch postmants.

master.

25. The postman or village postman will enter the acknowledgements in detail in his book or register as the case may be, and will obtain the remitter's signature or mark therein when

delivering each acknowledgement.

26 Acknowledgements appertaining to rent money-orders, the remitters of which have removed beyond the delivery range of the original office of issue, will be forwarded direct to the remitters at their new addresses (if known) enclosed in postal service registered covers.

27. Acknowledgements which cannot be delivered in consequence of the remitters not being found will be returned by the postman or village postman to the postmaster or money-order clerk (as the case may be), who will sign for them in the postman's book or village postman's register.

28. Undelivered acknowledgements will be kept in the

28. Undelivered acknowledgements will be kept in the office of issue (if a head office) for a period of six months, and, if still unclaimed, will be forwarded under a postal service registered cover to the Postmaster-General.

29. In sub and branch offices undelivered acknowledgements will be retained for a period of ten days, and, if still unclaimed, will be forwarded to the head office under a postal service registered cover. Such acknowledgements will be kept in the head office for a further period of six months, and, if still undelivered, will be forwarded under a postal service registered cover to the Postmaster-General.

30. A rent money-order acknowledgement received by the Postmaster-General under the provisions of the two preceding paragraphs will be kept by him for a period of three years from the last day of the agricultural year in which the money-order was issued and, if not claimed within that period, will be

destroyed.

31. Postmasters, sub-postmasters and branch postmasters of offices of issue will be responsible that acknowledgements are delivered to remitters of rent money-orders without any unnecessary delay and free of charge. It will be useful to make enquiries as to the punctual and free delivery of acknowledgements from tenants who may call at post-offices to have rent money-orders issued.

32. Void rent money-orders are to be dealt with in accordance with rules 653, 654 and 655 of the Post-office Manual, volume I, 8th edition, and rules 505, 506 and 507 of the Post-office Manual, volume II, 6th edition.

GENERAL DEPARTMENT.

NOTIFICATIONS.

No. 600T.G.—The 19th May 1905.—The following draft of a notification which it is proposed to issue in exercise of the powers conferred by sections 93 and 163 of the Assam Labour and Emigration Act, 1901 (VI of 1901), is published for the information of persons likely to be affected thereby, and notice is hereby given that the draft will be taken into consideration after the expiry of one month from this date.

2. Any objection or suggestion which may be received from any person with respect to this draft within the period fixed as aforesaid, will be considered by the Lieutenant-

Governor.

DRAFT NOTIFICATION.

In exercise of the powers conferred by sections 93 and 163 of Act VI of 1901, the Lieutenant-Governor is pleased to direct that the following rule shall be added after rule 223 of the rules framed under the Act, to be found at pages 108 and 109 of the Emigration Manual, namely:—

Calcuta, the Sadar subdivision of the 24-Parganas, the districts of Burdwan, Birbhum, Bankura, Midnapore, Monghyr, Bhagaipur, Puruea, Gaya, Shahabad and all the Regulation districts of the Orissa Division.

Calcutta, the Sadar subdivision of the 24-Parganas, the districts of the Act in the places noted on the margin, shall maintain a register, in the form given below, of all emigants received into any place of accommodation; and no emigrant shall be despatched from any such place of accommodation until the entries made in the register in regard to such emigrant have been inspected by an officer

of Government appointed in this behalf by the Magistrate of the district in which the place of accommodation is situated.'

Form of reg to be maintained in places of accommodation provided for emigrants recruited under section 92 of Act VI of 1901.

(SEE RULE 224.).

and Re. 10 for each course of lectures on-

- 1. Book-keeping.
- Sbort-hand; and
- 3. Type-writing.

P. K. RAY, Offg. Principal, Presy. College.

PREBY. COLLEGE, CALCUTTA, the 15th May 1905.

BIHAR SCHOOL OF ENGINEERING.

Prospectus for Admission.

This School is under the management of the Principal of the Patna College, assisted by a Board of Visitors. It owes its origin to a fund raised by residents of Bihar to commemorate the visit to India of His Royal Highness the Prince of Wales. The object of the fund was the promotion of technical instruction in Bihar. The School was formally opened on the 11th July 1896 by His Honour the Lieutenant-Governor of Bengal.

2. The number of students admitted to the first-year class of each year will be limited to 60, of whom only 15 can be other than Biharis by race (viz., natives of the United Provinces, Central Provinces or Bengalis); but should the number of suitable applicants who are Biharis by race be insufficient to fill up the 45 vacancies, then the vacancies thus occurring can be given to those applicants who are natives of the United Provinces, Central Provinces, or Bengalis domiciled in Bihar or non-domiciled Bengalis. Provinces, or Bengalis domiciled in Bihar or non-domiciled Bengalis.

As far as accommodation is available, students who have passed the final B class examination will be admitted to the second-year class, provided they are not over 21 years of age, preference, again, being given to Biharis and domiciled Bengalis.

3. The School, as at present constituted, is chiefly engaged in training students for appointment as Sub-Overseers and Overseers.

The curriculum includes

A sound study of Elementary Mathematics.

(2) Careful training in Survey work.
(3) Drawing, both Free-hand and Engineering.
(4) Elements of road-making and the construction of simple buildings.

(5) Workshop practice, with hand tools and with machinery.

Students are prepared for the Overseer certificate of the Public Works Department. The necessary additional buildings have now been completed; and Government has agreed to reserve one appointment annually for a qualified student from this School, who must be a Bihari by race.

4. The next session will commence on 3rd July 1905.

5. In the Overseer Department, which corresponds to the Apprentice Department of the Shibpur College, the monthly fee is Re. 1-8, except for non-domiciled Bengalis, who shall pay Rs. 3. All scholarship-holders, however, receive free tuition. Government scholarshall pay its. 5. All scholarship-holders, however, receive free statement scholarships of the value of Rs. 7 a month, tenable for one year, are awarded each year on the results of the annual examinations, eight being tenable in the second-year class, six in the third-year class, and six in the fourth-year class. Of the scholarships attached to the School, 75 per cent. of them are to be reserved for those students who are Biharis by race. The teaching is in English.

Candidates for admission to the Overseer Department must be under 20 years of

age, and must have passed one of the tests mentioned below:

(1) The Entrance examination of an Indian University in English and Mathematics.
(2) Standard VII of the Code of European Schools.

- (3) Students who have not passed either of these tests, and who are otherwise eligible, will have to pass an examination in English and Mathematics (of about the same standard as the Entrance examination of the Calcutta University in these subjects) to be held by the Principal of the Patna College on the 5th and 6th July, respectively (from 6 A.M. to 9 A.M. each day).
- 7. Candidates for admission must apply to the Principal not later than the 30th June. Their application must give the following particulars:—.

(a) Name, address, and occupation of father or guardian.

(b) Race and religion, and evidence to show that he is either a Bihari or a native of the United Provinces or Central Provinces or a domiciled Bengali or a non-domiciled Bengali.

- (c) A certificate of good moral character.
 (d) An attested certificate of age (showing that he is under 20 years of age).
 (e) A medical certificate showing him to be fit for employment in the public service. (f) A certificate of having passed either of the first two of the three tests mentioned above, failing which the application will be kept pending till a certificate showing that the candidate has passed the third test is given to the Principal.
- 8. There is also an Amin class, admission to which may be obtained by students who do not know English. In the Amin class the course of study is for one year, and the monthly fee is Re. 1. An Amin student is taught Elementary Surveying with a corresponding amount of Mathematics and of Geometrical Drawing. He will not be admitted to the Workshop. A student in the first-year class of the Overseer Department who fails to pass the examination for promotion to the second-year class, but who has shown an adequate knowledge of Elementary Surveying and the other subjects taught in the Amin class may, at his option, leave the School with an Amin certificate.

Candidates for Amin class who have not passed the Middle English or Middle Vernacular examination will be examined at the School on the 7th July; candidates failing at

this examination will not be admitted.

9. Except in very special cases, a student will not be admitted to the Amin class for the session that commences from 3rd July 1905, unless application for admission is made before 30th June 1905.

10. Every candidate for admission to the School must bring a certificate of good character from the Head of the institution from which he has come.

All candidates for admission to the School should present themselves personally at the School on the 3rd July.

BANKIPORE.

H. R. JAMES,

The 14th February 1905.

Offg. Principal, Patna College.

NOTE .- There is a hostel in connection with the School which will be opened in July 1905.

Yearly Examination of Candidates for fourth grade of Accountants.

The yearly examination of candidates for fourth grade, of Accountants, Public Works Department, will be held at the Civil Engineering College, Sibpur, on Monday and Tuesday, the 3rd and 4th July 1905, at 10-30 A.M., both days:—

SUBJECTS.

	Full marks.	pass marks.
Writing (neatness, clearness, and rapidity) Dictation (spelling, punctuation, etc.) Arithmetic (the whole) Mensuration (a) the whole Book-keeping (b) mercautile	100 100 240 60 100	50 50 169 30 50
Total	600	

Minimum required in all papers collectively, 400.

(a) Tedhunter's Mensuration for Beginners.

(b) "Book-Keeping," by Ball and Hamilton.
"Book-keeping," by double and single entry, by W. Inglis (Chambers' Educational Course).

The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in July. The examination will be conducted either at the College, or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam, and Burma only. The examination will be ipso facto vitiated, if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements, in regard to the place and hour of examination, with the candidates

Candidates will not be examined in any of the Calcutta offices.

* This term includes employment under Local Boards and foreign bodies, if such is pensionable by the British Government.

A candidate already in permanent Government employ may be allowed to compete in the examination, even if he is more than 25 years of local Boards and foreign bodies, age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable

2. The candidate should apply to an Examiner of Public Works Accounts, not later than 30 days previous to the date fixed for the examination, and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following particular and the formation to the Principal but following certificates, and must be forwarded by him, not, direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned:—

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior, under whom he has been educated, or by some other superior, under whom he has been educated, or by some other superior, under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

(2) Certificate of age (baptismal or of birth) not required, if the candidate is already

in permanent Government employ.

(3) Certificate that the application is in the candidate's handwriting.

Note.—A candidate already in Government service should, in like manner, submit his application, through his immediate official superior, to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal, for registration, the names of the accepted candidates. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates. of candidates.

3. Examination papers that are issued for examination need not be returned. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh fee and certificates.

5. If from any cause a candidate fails to appear for the examination, the fee paid will

not be refunded.

6. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts, in the province or railway under whom they may desire to be employed.

7. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons who are already employed in the Department.

8. The Civil Engineering College acts solely as an examination body in reference to admission to the fourth grade of Accountants, Public Works Department.

9. Candidates for the fourth grade Accountantship examination, who are not Government servants and over 25 years of age, are allowed to appear at the examination, at the Sibpur College centre only, but, even if successful, they are debarred from employment in the service of Government, and their names will be excluded from the list of passed candidates which is furnished to the Accountant General, Public Works Department.

10. Candidates over 25 years of age should apply in writing to the Principal of the Civil Engineering College, not later than 30 days previous to the examination; the application to be accompanied by the fee of Rs. 10.

SIBPUR.

A. MACDONELL,

The 5th May 1905.

Offg. Principal, Civil Engineering College.

HIGH COURT NOTICES.

NOTIFICATION.

THE following order of His Majesty in Council of the 20th March 1905, amending the procedure to be followed in England in appeals to His Majesty in Council where a Respondent fails to enter an appearance, is published for general information.

HIGH COURT; English DEPARTMENT (Civil), By order of the High Court,

A. P. MUDDIMAN,

Registrar.

The 26th May 1905.

AT THE COURT AT BUCKINGHAM PALACE. The 20th day of March 1905.

PRESENT :

THE KING'S MOST EXCELLENT MAJESTY.

ARCHBISHOP OF CANTERBURY.

LORD SUFFIELD. SIR WILLIAM WALROND.

LORD PRESIDENT. Whereas there was this day read at the Board a representation from the Judicial Committee of the Privy Council, dated the 16th day of March 1905, and in the words

following, viz .:-"The Lords of the Judicial Committee having taken into consideration the practice under which an Appeal to Your Majesty in Council cannot, in the absence of a special Order in that behalf made by their Lordships, be set down for hearing ex parte as against a Respondent to the Appeal who has failed to enter an Appearance thereto in the Registry of the Privy Council unless the Appellant shall have previously obtained from their Lordships two successive Orders commouly known as 'Appearance Orders' requiring the said Respondent to enter an Appearance to the Appeal within the periods by the said Orders respectively limited, and shall have duly published the said Orders by affixing the same on the Royal Exchange and elsewhere in the usual manner and unless the said periods so limited by the said Orders as aforesaid shall have expired. And being of opinion that the said practice is inconvenient and ought in certain cases and subject to certain conditions to be dispensed with. Their Lordships do this day agree humbly to recommend to Your Majesty to order as follows, that is to say:—

- "1. That where a Respondent to an Appeal to Your Majesty in Council whose name has been entered on the Record of the Appeal by the Court admitting the Appeal fails to enter an Appearance to the Appeal in the Registry of the Privy Council, and it appears from the Transcript Record in the Appeal or from a Certificate of the Officer of the Court transmitting the said Transcript Record to the Registrar of the Privy Council that the said Respondent has received notice of the Order admitting the Appeal to Your Majesty in Council or of the Order of Your Majesty in Council giving the Appellant special leave to appeal to Your Majesty in Council (as the case may be) and has also received notice of the dispatch of the said Transcript Record to the Registrar of the Privy Council the Appellant shall not, subject to any direction by their Lordships to the contrary, be required to take out Appearance Orders calling upon the said Respondent to enter an Appearance in the Appeal, and the Appeal may, subject as aforesaid, be set down for hearing ex parte as against the said Respondent at any time after the expiration of three calendar months from the date of the lodging of the Appellant's Petition of Appeal in like manner as if the said Appearance Orders had been taken out by the Appellant and the times thereby respectively limited for the said Respondent to enter an Appearance had expired.
- "2. That where a Respondent to an Appeal to Your Majesty in Council whose name has been brought on the Record of the Appeal by an Order of Your Majesty in Council fails to enter an Appearance to the Appeal in the Registry of the Privy Council and it appears from the Transcript Record or from a Supplementary Record in the Appeal or from a Certificate of the Officer of the Court transmitting the said Transcript Record or Supplementary Record to the Registrar of the Privy Council that the said Respondent has received due notice of any intended application to Your Majesty in Council to bring him on the Record as a Respondent to the Appeal, the Appealant shall not, subject to any direction by their Lordship's to the contrary, be required to take out Appearance Orders calling upon the said Respondent to enter an Appearance in the Appeal, and the Appeal may, subject as aforesaid, be set down for hearing ex parts as against the said Respondent at any time after the expiration of three calendar months from the date on which the said Respondent shall have been served with a copy of Your Majesty's Order in Council bringing him on the Record of the Appeal in like manner as if the said Appearance Orders had been taken out by the Appellant and the times thereby respectively limited for the said Respondent to enter an Appearance had expired.
- "3. That nothing herein contained shall be deemed to affect the power of their Lordships to order the Appellant in an Appeal referred by Your Majesty to their Lordships to take out Appearance Orders or to be excused from taking out Appearance Orders in any case in which their Lordships shall think fit so to order and generally to give such directions as to the time at which and the conditions on which an Appeal so referred as aforesaid shall be set down as in the opinion of their Lordships the circumstances of the case may require.
- "4. That this Order shall apply to all Appeals in which the Petition of Appeal shall be lodged after the date hereof."

HIS MAJESTY having taken the said representation into consideration was pleased, by and with the advice of HIS PRIVY COUNCIL, to approve thereof and of what is therein recommended, whereof all persons whom it may concern are to take notice and govern themselves accordingly.

A. W. FITZROY.

Sheriff's Office, the 31st May 1905.

Notice is hereby given that the Third Criminal Sessions of the year 1905 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William, and the places subordinate thereto, will be held at the Court-house, in the Town of Calcutta, on Monday, the third day of July next, at 11 o'clock in the forenoon, and thenceforward from day to day until the said Sessions be over. And it is hereby proclaimed that all persons who are to prosecute any of the prisoners to be brought up for trial at the said Sessions be present then and there to prosecute.

EDUCATION DEPARTMENT, BENGAL,

Subordinate Educational Service.

The 27th May 1905.—Babu Durga Prasad Tewari, Deputy Inspector of Schools, Hazaribagh, under orders of transfer to Bhagalpur (Class IV), having returned to duty on the forenoon of the 9th May 1905, the unexpired portion of the leave granted to him under the orders of the 3rd May 1905 is cancelled.

Babu Ram Gopal Mukerjea, Sub-Inspector of Schools, Midnapore (Class V), is appointed, subject to the consent of the District Board of Midnapore, to act as Additional Deputy Inspector of Schools, Sonthal Parganas, during the absence, on deputation, of Babu Krishna Lal Sadhu, M.A., or until further orders.

V. H. Jackson,

Asst. Director of Public Instruction, in charge.

RULES OF THE GOVERNMENT CUTTACK SURVEY SCHOOL.

I.—The school is under the general supervision of the Principal of the Ravenshaw College.

II.—The number of admissions to the first year class of each year is limited to 50, of whom only 20 can be other than Uriyas or Bengalis domiciled in Orissa; but should the number of eligible Uriya (or domiciled Bengali) candidates fall below 30, the vacancies thus occurring can be given to non-Uriya candidates.

III.—The session usually begins in the last week of June. All applications for admission should be made to the Principal of the Ravenshaw College on or before the 15th June previous to the commencement of the session, and should furnish the following particulars:—

- (a) Name, address and occupation of father and guardian.
- (b) Race and religion.
- (c) Age of the candidate (which must not exceed 20 years).

IV.—Candidates for admission must submit satisfactory evidence that they have read up to the first class of a High English School or, in the case of Uriya (or demiciled Bengali) candidates, have at least passed the Middle English Examination or have passed the annual examination of the 5th class of a High School.

V.—Each candidate must produce at the time of admission a certificate showing good moral character, and also a medical certificate of good and sound health from an Assistant Surgeon.

VI.—No student who fails to pass the final examination of a Survey School or does not bring a transfer certificate under the ordinary transfer rules will be permitted to join the second year class after the 31st July.

VII.—The admission fee is rupee one and the monthly fee rupee one, but Government scholars receive free tuition.

VIII.—There are six Government scholarships, which are awarded each year to the best Uriya students and domiciled Bengalis permanently settled in Orissa only on the results of the annual examination of the first year class.

IX.—The course of study in the school extends over two years, and the students are required to attend at least 75 per cent. of the working days.*

X.—The successful students at the annual examination of the first year class are usually promoted to the second year class; but those who wish may, at their option, leave the school with an amin certificate from the Head-master of the school. The successful students of the final survey standard examination receive certificates from the Director of Public Instruction, Bengal.

The curriculum of each year is detailed below:-

FIRST YEAR CLASS.

Mathematics.

Arithmetic, whole; Algebra up to fractions; Geometry, Books I, II and III. Mensuration-Lines and Surfaces.

Drawing.

Practical Geometry; Geometrical figures; Construction of scales—simple and diagonal; Map-drawing; Plotting; and Conventional signs.

Surveying.

Theoretical—Chain, compass, plane-table, and levelling.

Practical—Survey of open country with chain only.

Survey of village and town with chain and compass.

Professional system of cadastral survey.

Levelling.

Estimating.

Of simple buildings.

Projection.

Of lines and planes.

* Both in the theoretical and in the practical subjects.

SECOND YEAR CLASS.

Mathematics.

Algebra, up to simple equations. Geometry, the first six books. Mensuration, the whole.

Trigonometry, solution of triangles and use of logarithms.

Drawing.

Orthographic projections; Engineering drawings (plans, elevations and sections of buildings, arches, culverts and bridges); plotting of maps of fields on different scales; evicuring and enlarging and reducing maps, &c.

Surveying.

Theoretical and practical. Theodolite survey (Gale's Traverse system and triangulation); plane-table: levelling and laying out of curves, &c.

Engineering.

Elements of road-making, including laying out of curves.

Estimating.

Buildings, culverts and earthwork.

V. H. JACKSON,

The 6th May 1905.

Asst. Director of Public Instruction, in charge.

N.B.—There is a boarding-house for mufassil students; but the number of beds available is limited and applications for a should be made in time to the Resident Superintendent of the Hostel.

DERS BY THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY

P. K. RAY,

Offg. Principal, Presy. College.

PRESY. COLLEGE, CALCUTTA, the 15th May 1905.

# BIHAR SCHOOL OF ENGINEERING.

# Prospectus for Admission.

This School is under the management of the Principal of the Patna College, assisted by a Board of Visitors. It owes its origin to a fund raised by residents of Bihar to commemorate the visit to India of His Royal Highness the Prince of Wales. The object of the fund was the promotion of technical instruction in Bihar. The School was formally opened on the

the visit to India of His Royal Highness the Prince of Wales. The object of the fund was the promotion of technical instruction in Bihar. The School was formally opened on the 11th July 1896 by His Honour the Lieutenant-Governor of Bengal.

2. The number of students admitted to the first-year class of each year will be limited to 60, of whom only 15 can be other than Biharis by race (viz., natives of the United Provinces, Central Provinces or Bengalis); but should the number of suitable applicants who are Biharis by race be insufficient to fill up the 45 vacancies, then the vacancies thus occurring can be given to those applicants who are natives of the United Provinces, Central Provinces, or Bengalis domiciled in Hihar or non-domiciled Bengalis. Provinces, or Bengalis domiciled in Blaar or non-domiciled Bengalis.

As far as accommodation is available, students who have passed the final B class examination will be admitted to the second-year class, provided they are not over 21 years of age, preference, again, being given to Biharis and domiciled Bengalis.

3. The School, as at present constituted, is chiefly engaged in training students for appointment as Sub-Overseers and Overseers.

The curriculum includes-

A sound study of Elementary Mathematics.

(2) Careful training in Survey work.(3) Drawing, both Free-hand and Engineering.

(4) Elements of road-making and the construction of simple buildings.
 (5) Workshop practice, with hand tools and with machinery.

Students are prepared for the Overseer certificate of the Public Works Department. The necessary additional buildings have now been completed; and Government has agreed to reserve one appointment annually for a qualified student from this School, who must be a Bihari by race.
4. The next session will commence on 3rd July 1905.

5. In the Overseer Department, which corresponds to the Apprentice Department of the Shibpur College, the monthly fee is Re. 1-8, except for non-domiciled Bengalis, who shall pay Rs. 3. All scholarship-holders, however, receive free tuition. Government scholarshall pay its. S. It states the state of the same of the value of Rs. 7 a month, tenable for one year, are awarded each year on the results of the annual examinations, eight being tenable in the second-year class, six in the third-year class, and six in the fourth-year class. Of the scholarships attached to the School, 75 per cent. of them are to be reserved for those students who are Biharis by race. The teaching is in English.

6. Candidates for admission to the Overseer Department must be under 20 years of

age, and must have passed one of the tests mentioned below:

The Entrance examination of an Indian University in English and Mathematics.
 Standard VII of the Code of European Schools.

- (3) Students who have not passed either of these tests, and who are otherwise eligible, will have to pass an examination in English and Mathematics (of about the same standard as the Entrance examination of the Calcutta University in these subjects) to be held by the Principal of the Patna College on the 5th and 6th July, respectively (from 6 A.M. to 9 A.M. each day).
- 7. Candidates for admission must apply to the Principal not later than the 30th June. Their application must give the following particulars:

(a) Name, address, and occupation of father or guardian.

(b) Race and religion, and evidence to show that he is either a Bihari or a native of the United Provinces or Central Provinces or a domiciled Bengali or a non-domiciled Bengali.

(c) A certificate of good moral character.

(d) An attested certificate of age (showing that he is under 20 years of age).
(e) A medical certificate showing him to be fit for employment in the public service.

- (f) A certificate of having passed either of the first two of the three tests mentioned above, failing which the application will be kept pending till a certificate showing that the candidate has passed the third test is given to the Principal.
- 8. There is also an Amin class, admission to which may be obtained by students who do not know English. In the Amin class the course of study is for one year, and the monthly fee is Re. 1. An Amin student is taught Elementary Surveying with a corresponding amount of Mathematics and of Geometrical Drawing. He will not be admitted to the Workshop. A student in the first-year class of the Overseer Department who fails to pass the examination for promotion to the second-year class, but who has shown an adequate knowledge of Elementary Surveying and the other subjects taught in the Amin class may, at his option, leave the School with an Amin certificate.

Candidates for Amin class who have not passed the Middle English or Middle Vernacular examination will be examined at the School on the 7th July; candidates failing at

this examination will not be admitted.

9. Except in very special cases, a student will not be admitted to the Amin class for the session that commences from 3rd July 1905, unless application for admission is made before 30th June 1905.

10. Every candidate for admission to the School must bring a certificate of good

10. Every candidate for admission from which he has come.

character from the Head of the institution from which he has come

All candidates for admission to the School should present themselves personally at the School on the 3rd July.

BANKIPORE,

H. R. JAMES,

The 14th February 1905.

Offg. Principal, Patna College.

Yearly Examination of Candidates for fourth grade of Accountants.

THE yearly examination of candidates for fourth grade of Accountants, Public Works Department, will be held at the Civil Engineering College, Sibpur, on Monday and Tuesday, the 3rd and 4th July 1905, at 10-30 A.M., both days :-

| A CONTRACTOR OF THE SECOND SECOND SECOND    | Full marks. | Minimum<br>pass marks. |
|---------------------------------------------|-------------|------------------------|

| Mensuration (a) the whole                   | 60          | 30                     |
| Book-keeping (b) mercantile                 | 100         | 50                     |
| Total                                       | 600         |                        |

Minimum required in all papers collectively, 400.

(a) Todhunter's Mensuration for Beginners.

(b) "Book-keeping," by Ball and Hamilton,
"Book-keeping," by double and single entry, by W. Inglis (Chambers' Educational Course).

1. The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in July. The examination will be conducted either at the College, or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam, and Burma only. The examination will be ipso facto vitiated, if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements, in regard to the place and hour of examination, with the candidates

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ may be allowed to compete \* This term includes employment under Local Boards and foreign bodies, if such is pensionable by the British Government. age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable

establishment on State Railways.

2. The candidate should apply to an Examiner of Public Works Accounts, not later than 30 days previous to the date fixed for the examination, and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the

Engineer or Accounts Branch, but none will be returned :-

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior, under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

(2) Certificate of age (baptismal or of birth) not required, if the candidate is already in permenent Gayanament employ

in permanent Government employ.

(3) Certificate that the application is in the candidate's handwriting.

Note.—A candidate already in Government service should, in like manner, submit his application, through his immediate official superior, to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal, for registration, the names of the accepted candidates. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates. of candidates.

3. Examination papers that are issued for examination need not be returned.

Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh fee and certificates.

5. If from any cause a candidate fails to appear for the examination, the fee paid will

not be refunded. 6. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts, in the province or railway under whom they may desire to be employed.

7. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons who are already employed in the Department.

8. The Civil Engineering College acts solely as an examination body in reference to admission to the fourth grade of Accountants, Public Works Department.

9. Candidates for the fourth grade Accountantship examination, who are not Government servants and over 25 years of age, are allowed to appear at the examination, at the Sibpur College centre only, but, even if successful, they are debarred from employment in the service of Government, and their names will be excluded from the list of passed candidates which is furnished to the Accountant-General, Public Works Department. which is furnished to the Accountant-General, Public Works Department.

10. Candidates over 25 years of age should apply in writing to the Principal of the Civil Engineering College, not later than 30 days previous to the examination; the application to be accompanied by the fee of Rs. 10.

SIBPUR.

A. MACDONELL,

The 5th May 1905.

Offg. Principal, Civil Engineering College.

# NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 35931B.

Notice is hereby given that the Seventh Sale of Opium, the Provision of 1902-1903, will be held at the Government Opium Sale-room, No. 2 Bankshall Street, on Tuesday, the 4th July 1905, at 11 A.M., and will comprise 4,000 chests, viz.-

| Marian Control     |                                        |     | Chests. |
|--------------------|----------------------------------------|-----|---------|
| Opium manufactured | at the Patna Factory, consisting of    |     | 2,000   |
| Ditto              | at the Ghazipur Factory, consisting of | *** | 2,000   |
|                    | Total                                  |     | 4,000   |

2nd .- The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the notification issued on the 22nd November 1904 and published in the Government and Exchange Gazettes, or on personal application at the office of the Board of Revenue.

3rd .- The latest dates for deposit and clearance will be the 10th and 19th July 1905, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes or other Public Securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 p.m. of Monday, the 10th July 1905, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 p.m. of Wednesday, the 19th July 1905.

4th.—In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazipur Factories will be brought to sale between the sale now advertised and December next on or about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates, should circumstances render it expedient to do so:-
